

# 2018 Capital Budget

## Overview of the Capital Budget

The capital budget includes estimated capital project revenue and expenses required to build, replace and maintain capital assets owned by the City. The capital budget is distinguished from the annual operating budget, which provides for the City's day-to-day expenditures for items, including salaries, heat, hydro, maintenance and others. Each capital project identified in the capital budget means an undertaking for which capital expenditures are made or are to be made, including expenditures to acquire, improve, repair, replace, construct or extend life of land, buildings, structures, machinery and equipment, software, infrastructure, linear assets and studies.

The capital budget includes the cost of each capital project and the source of funding including: capital envelopes, reserves, government funding, financing future years, external debt financing, and third party recoveries. The capital envelope amount is the portion of the annual property tax levy shown as Contribution to Capital within the Operating Budget. The capital envelope for water and wastewater, is the portion from the annual water/wastewater user fees.

## 2018 to 2022 Capital Plan

The 2018 Capital Budget has capital expenditures of \$162 million, compared to \$222.6 million in 2017. It addresses the City's capital needs to support strategic business plans and address aging infrastructure, and is summarized by department or division and detailed by specific capital projects on the pages within this section of the document. The amount of the budget has decreased from 2017 due to lower amounts of government grants and a lack of financing in future years, which has been partially offset by the use of proposed external debt financing, for Municipal Road 35, as shown in the table below. The majority of the City's capital needs continue to be related to the replacement of existing infrastructure in the areas of roads, bridges, water/wastewater, facilities and fleet.

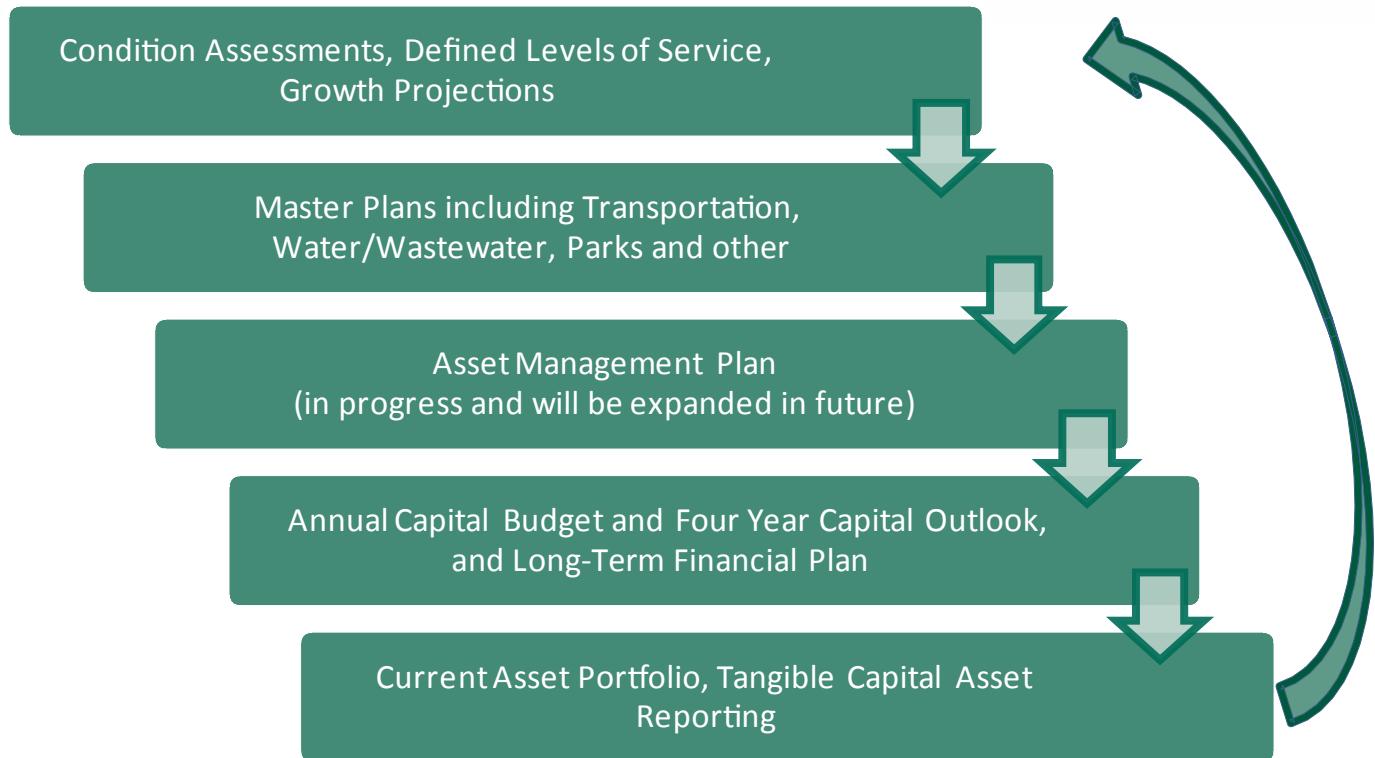

The table below summarizes the overall Capital Budget by funding sources:

Funding Source	2018 Budget Amounts	2017 Approved Budget Amounts (for comparison)
Capital Envelope (Tax Levy)	\$70,953,555	\$65,424,022
Reserves – Capital	\$13,904,612	\$31,181,428
Reserves – Obligatory	\$1,175,000	\$1,075,000
Government Funding	\$34,843,733	\$89,211,455
Financing Future Years	\$0	\$35,709,176
External Debt Financing	\$38,584,239	\$0
Third Party Recoveries	\$2,514,000	\$0
<b>Total Funding = Total Capital Budget Expenditures</b>	<b>\$161,975,139</b>	<b>\$222,601,081</b>

## Asset Management Plan

The City completed an Asset Management Plan that was presented to Council in December 2016. It highlighted the infrastructure requirement plans for areas including roads, water/wastewater, facilities, transit, landfills, fleet and more, along with a proposed financing strategy.

The City will develop a formal asset management framework of which some key elements are already in place, while others are still evolving or will begin in the future. This system will continue to improve as critical information is collected and analyzed for decision-making purposes. The City has been working to increase investment in capital replacements, however, these resources will need to be further enhanced to address the large infrastructure requirement.

This planning framework begins with our current asset portfolio, with an estimated replacement value of more than \$7 billion. This portfolio includes facilities, roads, water and wastewater infrastructure, parks and fleet. The City is behind in maintenance and renewal as a result of deferred replacement activities, as historically shown in the unfunded capital needs in previous capital budget documents and previously stated infrastructure requirements. Further to the Asset Management Strategy report presented to the Finance and Administration Committee in October 2017, the City will be developing an enterprise-wide approach to prioritizing capital investment starting with the 2019 Budget. It involves a strategic asset management planning approach, changes to certain financial policies, in particular the capital budget policy, and a new process for describing and deciding which investments will be made in any given budget year. The City will continue to work on items relating to planning for capital assets that include:

- **Clearly Defined Levels of Service (LOS):** Asset planning needs to begin with objectives. These objectives guide our planning. For example, water service is planned based on a target water pressure. Higher levels of service will generally cost more to develop and maintain. Finding the right balance between affordability and levels of service requires an ongoing examination by City Council and residents.
- **Condition Assessments:** Provide an indication of the condition of the asset. The asset condition determines whether or not it can provide the level of service required. While some assets can be examined visually, others, such as water and sewer pipes, are difficult and costly to assess. However, without this information, it is impossible to develop a manageable and affordable renewal plan.
- **Growth Projections:** Asset planning must also take into consideration the requirements of new people moving into the city. Population growth requires the development of new assets based on the target level of service.
- **Master Plans:** For each asset class, the City has either developed or is developing a long-term plan using the information described above as the key inputs. These plans generally have a scope of more than 20 years and will describe investment, construction, and renewal plans for assets to maintain the target level of service.
- **City-Wide Asset Management Plans:** Each of the master plans are consolidated and adjusted to ensure that over time, the required investment plan is manageable, feasible, and affordable. Peaks in one plan may require corresponding valleys in another plan to be adjusted so they don't occur at the same time.
- **Long-Term Financial Plan:** In addition to the Asset Management Plan, the City will develop 20 to 50 year assumptions regarding revenues and other sources of funding for the plan, as well as assumptions about the cost of operations. The Long-Term Financial Plan, which the City completed during the second quarter of 2017, provides guidance for making major decisions. The plan enables us to understand the impact of major financial investments on our capacity in future years and better determine the answers to significant planning and financial questions.

## Highlights of 2018

### Roads and Drains Capital Budget

The Roads and Drains 2018 capital budget is approximately \$103.4 million and represents almost 64 % of the Capital Budget. This is lower than the 2017 Budget of \$134.4 million. The amount shows continued spending at record levels by the City to improve roads in our community, but has decreased due to lower estimated amounts of government grants. The Maley Drive Extension project has a total estimated cost of \$80.1 million with 2/3 government grant funding of \$53.4 million. This amount has been partially offset in the 2018 budget with the inclusion of 2/3 proposed grant funding for Lorne Street at a total cost of \$24.9 million as well as Municipal Road (MR) 35 at a total estimated cost of \$33.2 million. Each of these is further explained below. The proposed government funding for Lorne Street is in addition to the permanent grant funding from Federal Gas Taxes and Ontario Community Infrastructure Fund (OCIF).

#### Four-laning of Municipal Road 35: Estimated cost: \$33.2 million

This proposed project is to four-lane the remainder of MR 35, which connects Sudbury with Chelmsford, Dowling, Levack and Onaping. This project also includes the rehabilitation of the existing two lanes as identified in the 2016 Capital Budget. In addition to obtaining external debt financing to fund this project, the City will submit applications to the federal and provincial governments for infrastructure funding as the project will be eligible and ready for construction during the next round of federal infrastructure funding applications. Government grants were not identified as a funding source based on Council's resolution in June 2017 to fund this project with external debt financing.

#### Reconstruction of Lorne Street: Estimated cost: \$24.9 million

This project will reconstruct the remaining part of Lorne Street in 2018. The City will complete the initial portion during 2017 based on funds identified in the 2016 Capital Budget. Funds identified in the 2018 Capital Budget are to complete detailed design engineering to ensure the project is shovel ready for the next proposed round of federal infrastructure funding applications. This project includes assumed funding from senior levels of government as well as external debt obtained by the City to fund its portion.

### Additional Roads and Drains Projects

An increase in Ontario Community Infrastructure Funding from \$4.3 million in 2017, to \$6.0 million in 2018, will be used toward road improvements including Dominion Drive, Beatty Street and Elm Street.

Federal Gas Tax funds of \$9.5 million are being used to fund various local roads and bridge improvements.

Some of the other large projects within Roads and Transportation include Dominion Drive, Beatty Street, Elm Street, MR 55 Vermillion River Bridge, Salt and Sand Dome Design, and Crean Hill Road from MR 4 to Victoria Mine. Projects approved by Council in 2017, including additional funding for the Elgin Street Greenway and funding for the Capreol Community Improvement Plan (CIP) Waterfront Project are also significant.

A substantial project within the Drainage area is the Green Avenue Stormwater Conveyance Improvements of \$2.1 million as approved by Council during 2017 to be funded within the 2018 Capital Budget.

There are significant capital projects to be completed from the 2017 Capital Budget by the end of March 2018. These projects have received funding from the Clean Water and Wastewater Fund, Public Transit Infrastructure Fund and the Ministry of Environment and Climate Change for various roads, bridges and subwatershed studies projects.

## Highlights of 2018

### Water/Wastewater

The capital budget for water/wastewater is approximately \$37.2 million in 2018, compared to \$56.2 million in 2017. This decrease is due mainly to lower government grants as explained below:

In 2017, there was a Clean Water and Wastewater Fund grant of \$6.7 million for water and \$160,000 for wastewater. This grant funded various watermain and sewermain improvements in our community.

In 2017, there was internal financing of \$16.7 million for various wastewater capital projects, such as the St. Charles Lift Station upgrades, Gatchell Outfall Sewer, Sudbury Wastewater Treatment Plant upgrades, and Lively Sanitary Sewer upgrades.

These reductions were offset by an increase to the capital envelopes which received a higher allocation based on Council direction for a water/wastewater user fee increase of 7.4 % in 2018, in line with the Long-Term Financial Plan for this division.

### Citizen and Leisure Services

The 2018 capital budget for Citizen and Leisure Services is \$5.8 million compared to \$4.6 million in 2017. The increase is due mainly to the inclusion of the Elgin Street Greenway (\$1.6 million including proposed government grants) and the Capreol Community Improvement Plan (\$240,000) projects approved by Council in 2017 to be included in the 2018 Capital Budget. The budget also includes seed funding for the Therapeutic/Leisure Pool in the amount of \$300,000 in 2018, as well as \$350,000 in the 2019 and 2020 Capital Outlook contingent on fundraising a residual amount for construction. Furthermore, funds have been allocated to replace HVAC equipment at various pools, to replace the roof at the Howard Armstrong Recreation Centre, and to complete structural repairs at the Chelmsford and Sudbury arenas.

### Transit

The 2018 capital budget for Transit is approximately \$921,000, compared to \$10.7 million in 2017. This significant decrease is the result of the City's allocation of \$5.3 million from the Public Transit Infrastructure Fund (PTIF) which was included in the 2017 Capital Budget. The PTIF funding allocated 50 % of project costs and is being used to accelerate the replacement of transit buses, transit ridership and maintenance software, roof replacement at the Transit/Fleet Garage and other facility replacement and improvement projects. The City funded the remaining 50 % of these projects with \$1.4 million in Provincial Gas Tax funds, including internal financing being repaid with future Provincial Gas Tax funds of \$3.7 million, and funds from capital envelopes. The repayment of these PTIF projects is shown in the 2018 Capital Budget from Provincial Gas Taxes of \$800,000.

### Facilities

The capital budget for Facilities has increased slightly from \$2.2 million in 2017 to \$2.5 million in 2018. Capital projects set for 2018 include internal financing repayments for the Tom Davies Square Courtyard renovations, additional funding for the courtyard and parking roof project, as well as \$470,000 in improvements at various EMS and Fire Halls including the Lionel E. Lalonde Centre. There are significant capital needs for replacements and improvements to various City facilities due to age, condition beyond useful life, and health and safety concerns.

### Fire

The capital budget for Fire is \$1.3 million in 2018 which is a decrease from \$2.5 million in 2017. The budget includes the purchase of two front line response vehicles as well as the internal financing repayments for an Aerial Fire Truck that was approved in the 2017 budget.

## Highlights of 2018

### Police Headquarter Renovations

The Greater Sudbury Police Service has a draft capital budget of approximately \$1.8 million. The budget includes additional funding from the tax levy / capital envelopes to set aside funds for external debt repayments for the pending building renovations at the existing headquarters and Lionel E. Lalonde Centre, or for a new building. Police Services will proceed with a building assessment during 2018 in order to provide a recommendation for the 2019 Budget.

### Annual Increase to Operating Budget

The Capital Budget includes new or expanded capital assets and infrastructure that will have an impact on future operating budgets when these assets are completed and placed into service. The increased costs are due to higher staffing costs, materials, contract services and utilities associated with maintaining the operation and use of these new and expanded assets. The new and expanded assets also provide for a cleaner environment, as in the case of Active Transportation Assets, as well as beautification of downtown areas of the City (Sudbury and Capreol). The table below shows a summary of the impact on the operating budget for increased expenses as shown within the notes in each respective capital budget area below:

Capital Budget Area/Project	Annual Operating Budget Impact
Citizen and Leisure – Capreol CIP Waterfront	\$72,500
Citizen and Leisure – Elgin Street Greenway	\$67,500
Citizen and Leisure – Garson Splash Pad	\$10,000
Citizen and Leisure – Copper Cliff Splash Pad	\$10,000
Roads – Active Transportation Assets	\$24,676
Roads – Kelly Lake Road	\$5,365
Roads – Dominion Drive	\$4,233
Roads – Sidewalks	\$3,465
<b>Total Annual Operating Budget Impact (Increase to annual operating expenses)</b>	<b>\$197,739</b>

## Financing Plan

### Government Grants

The 2018 Capital Budget includes approximately \$34.8 million of federal and provincial grants. This includes \$17.2 million from ongoing Federal Gas Tax (\$10.4 million) and Provincial Gas Tax (\$800,000) funds, as well Ontario Community Infrastructure Fund (OCIF) dollars (\$6 million). The amount of Provincial Gas Tax funds used in the capital budget varies from year to year based on the Transit Long-Term Financial Plan. In 2018 it represents the internal financing repayment for the PTIF related capital projects approved in the 2017 Capital Budget.

The significant one-time funding opportunities that are assumed from senior levels of government are summarized in the chart below. This funding is based on applications to be submitted that have not been approved by Federal or Provincial Governments. Should the government funding not be approved, a future report will be presented to Council for direction on the projects and other funding sources.

Government Grant	Capital Budget Area/Project	Amount
Federal Grant	Roads – Lorne Street and MR 55	\$8,287,059
Provincial Grant	Roads – Lorne Street and MR 55	\$8,287,059
Federal Grant	Citizen and Leisure – Elgin Greenway	\$467,000
Provincial Grant	Citizen and Leisure – Elgin Greenway	\$467,000
Provincial Grant	Health and Social Services – Office Renovations Children and Social Services	\$80,000
<b>Total One-Time Capital Funding</b>		<b>\$17,588,118</b>

This is a significant decrease from the 2017 Capital Budget which included one-time capital funding of \$73.6 million, encompassing funding for the Maley Drive Extension project. The 2017 grants require the funds be spent by the end of March 2018, with the exception of the Maley Drive Extension project funds. As such, there is a significant number of capital projects in progress during 2017 that should be completed early in 2018.

### Special Capital Levy of 1.5 %

The City's initial Long-Term Financial Plan from 2002 recommended an annual increase in capital funding of 2.3 % of the previous year's property tax increase to address the infrastructure requirement. The Long-Term Financial Plan Audit by the Auditor General's Office indicates that previous Councils approved a separate capital levy only for a few years during the mid 2000s, which was then offset by a permanent reduction in the capital envelopes in 2010.

Consistent with prior years, staff recommends a special capital levy of 1.5 % within the 2018 budget, which would represent approximately a \$3.75 million investment in our infrastructure. This amount will be used to fund specific projects during 2018, or as debt repayment to obtain up to \$50 million of external debt. Because the capital levy is meant to address the infrastructure requirement, including replacement of existing capital assets, it is recommended these additional funds be allocated to improve, rehabilitate and replace various assets used by citizens as well as to provide services to residents.

If Council approves an additional capital levy for 2018, staff will present a future report to Council identifying significant capital projects determined by the Executive Leadership Team based on a risk based, enterprise-wide approach.

## Financing Plan

### External Debt Financing

The use of external debt financing has been considered and incorporated into the 2018 Capital Budget due to continuing low interest rates, coupled with the City's infrastructure requirement. The additional capital levy of 1.5 % is being considered to obtain additional external debt to fund the continuing debt repayments. The City will look to obtain external debt financing to fund the City's proposed shares for Municipal Road 35 and Lorne Street based on the assumption of proposed funding from senior levels of government for Lorne Street only. The chart below also includes proposed external debt for the Event Centre on the Kingsway pending Council's decision on the business case. The amounts below are in addition to the \$5 million Council approved during the 2017 Capital Budget as a grant contribution to a Place des arts capital project.

Capital Budget Area/Project	External Debt Financing Amount
Roads – MR 35 from Highway 144 to Notre Dame East	\$30,854,201
Roads – Lorne Street and MR 55 from Elm Street to Power Street	\$7,730,038
Additional Capital Levy - Potential additional external debt for Facilities if additional capital levy of 1.5% is used to fund external debt repayments up to \$3.75 million	Up to \$50,000,000
Event Centre on the Kingsway	\$90 million
Total Potential External Debt Financing	\$128.6 million to \$178.6 million <small>(depending on allocation of capital levy to debt)</small>

Please refer to the Budget Overview tab for additional information on debt financing.

### Water/Wastewater Capital Budget

Please note that detailed financial information on water/wastewater capital budget can be found at the Water/Wastewater tab of this document.

## 2018 CAPITAL BUDGET - BY DIVISION/AREA

	Department	Capital Envelope	Reserves Capital	Reserves Obligatory <sup>1</sup>	Government Funding <sup>2</sup>	Financing Future Years	External Debt Financing	Third Party Recoveries	TOTAL	2017 Approved Capital Budget
<b>Infrastructure Services</b>

**Notes:**

1) The 2018 Capital Budget includes funding from Development Charges to partially fund debt repayments for Gerry McCrory Countryside Arena and South Branch Library for a total of \$225,000. It also includes funding from subdivision asphalt developer deposits for a total of \$850,000, and \$10,000 funding from Parks Reserve Fund for a splash pad in Garsen.

2) Government Funding includes Federal Gas Taxes of \$10,409,758, Provincial Gas Taxes of \$80,439, Ontario Community Infrastructure Fund (OCIF) grant of \$6,045,418, proposed Provincial and Federal Grant Funds for Lorne Street of \$16,574,118, proposed Provincial and Federal funding for Elgin Greenway project of \$934,000, and proposed Provincial funding for office renovations in Children's & Social Services of \$80,000.

3) This Capital Budget includes an estimate for incremental operating costs of approximately \$197,739 which will be included in future operating budgets when asset is in operation.

4) There is no capital budget for 199 Larch Street for the period of 2018 to 2022 pending changes to the capital budget policy in 2019 where funding from the tax levy may be used to fund priority projects such as this facility. As stated in prior year budget documents, the 199 Larch Street Reserve Fund has been overcommitted towards priority projects with borrowing from the Capital Financing Reserve Fund - General which is to be repaid from future net revenues (i.e. contributions to 199 Larch Street Reserve Fund) from this facility.

## Roads / Drainage Summary

CATEGORY DESCRIPTION (For detailed project listing see attached)	2018 REQUEST	2019 OUTLOOK	2020 OUTLOOK	2021 OUTLOOK	2022 OUTLOOK

**Priority Setting:**

To determine projects in the first four (4) Product Categories (Major Roads, Minor Roads, New Roads, and Bridge Rehabilitation), an Overall Condition Index (OCI) criteria is utilized. The following criteria are used to develop the OCI:

- a) Condition Rating/Cost Benefit: Roads are physically examined for structural condition, ride smoothness, truck traffic, traffic volumes and drainage. A computerized Pavement Management System (Deighton), which generates recommended rehabilitation strategies and costs by road classification and at pre-established budget scenarios is one of the tools used to develop the OCI.
- b) Safety: Are there any safety concerns that a project will solve.
- c) Associated with Water/Wastewater Projects: Where water/wastewater construction or rehabilitation is required, the road will be restored/upgraded if warranted.
- d) Economic Development Opportunity: Site specific in conjunction with proposed development (commercial and/or residential).
- e) Environment and Traffic Congestion Issues: It has been demonstrated that reducing bottlenecks and resulting idling can reduce carbon monoxide and carbon dioxide between 50% and 80%.

<b>PROJECT COSTS</b>		\$	\$	129,403	\$ 131,991	\$ 134,631	\$ 137,324	\$ 140,070
<b>CAPITAL ENVELOPE (Tax Levy)</b>		\$	\$	129,403	\$ 131,991	\$ 134,631	\$ 137,324	\$ 140,070

**Priority Setting:**

Priority is based on need as relating to equipment, mapping/ortho photography, and other plans/studies. The needs of the next five years are planned to update mapping and orthophotography of various areas of the City. In 2018, new GPS equipment to keep up with new technologies and standards is scheduled as well as some photography.

## Growth Related Projects

### PROJECT DESCRIPTION

#### PROJECT TYPE

R (Renewal)

1) Parks Equipment Replacement Reserve Fund (\$100,000), Capital Financing Reserve Fund - Leisure (\$200,000), Cemeteries Reserve Fund (\$150,000)					
2) Parks Section 50 Reserve Fund					
<b>Priority Setting:</b>					
Priority setting for Leisure is based on renewal, health and safety, and new facilities. For new facilities, priority is based on Parks/Open Space Leisure Master Plan in order to implement identified priority projects.					
Priority setting for Facilities is based on ageing facilities and need in areas of building shell, roofs, mechanical, electrical, and health and safety. Priority setting for Citizen Services is based on building renewal and expansion. In regards to Facility priority, it is based on building age (repair roof, replace lighting, replace boiler etc) as well as expansion.

<b>PROJECT COSTS</b>							

### Notes:

- 1) Development charges partially fund the internal debt repayments for Gerry McCrory Countryside Arena (\$15,000) and the South Branch Library (\$110,000).
- 2) Project amount of \$1,501,000 based on Council report and consists of \$100,000 from Greater Sudbury Development Corporation (GSDC), grant applications to the Federal and Provincial Governments at \$467,000 each, as well as \$400,000 from the Downtown Sudbury Business Improvement Area (BIA) Board that was approved during 2017 for street furniture. Also, includes \$467,000 from the City (for a 1/3 share) and will be partially funded through the Capital Financing Reserve Fund - Leisure (\$200,000). If the government grants and/or GSDC application are not successful, then project will return to Council for direction and/or other funding sources.
- 3) Elgin Street Greenway (Phase 1) project will require an operational budget increase of \$67,500 annually (\$60,000 labour/\$5,000 materials/\$2,500 contract services).
- 4) Capreol CIP Waterfront project will require an operational budget increase of \$72,500 annually (\$65,000 labour/\$5,000 materials/\$1,000 energy/\$1,500 contract services).
- 5) Parks Equipment funded from the Equipment and Vehicle Replacement Reserve Fund - Parks (\$100,000).
- 6) The following projects will be funded from the Cemeteries Reserve Fund:
 

Valley East - Columbarium Niche Wall	\$ 80,000
Civic Memorial Mausoleum - Roof Repair	65,000
Civic Memorial Cemetery Office - HVAC Upgrade	5,000
<b>Total:</b>	<b>\$ 150,000</b>
- 7) Garson Splash Pad will be funded from the Parks Section 50 Reserve Fund and will require an operational budget increase of \$10,000 annually when the asset is put into service.
- 8) Copper Cliff Splash Pad will require an operational budget increase of \$10,000 annually when the asset is put into service.

Notes:

- 1) Therapeutic equipment consist of mattresses, lifts, exercise equipment for residents and beds.
- 2) Ten tubs will reach or have reached life expectancy by 2022 in sections not slated for redevelopment. Tubs in section slated for redevelopment will only be replaced if no possible alternative.
- 3) Populations Health Initiatives includes items such as sun shades and creation of community hubs. For 2018, the priority is sunshades in Parks with splashpads.
- 4) Carpet and workstation replacements as identified by health and safety issues and employee survey. These expenditures would be eligible for 50/50 Provincial funding from Children & Social Services.

**Priority Setting:**

Based on strategic priorities for Health and Social Services such as infrastructure in Housing, Child Care, Social Services and Pioneer Manor. Capital expenditures at Pioneer Manor are prioritized taking into consideration health & safety of residents, staff and visitors to Pioneer Manor as well as legislative requirements, best practice and community needs.

## Healthy Community Initiative Fund (HCI)

PROJECT DESCRIPTION	2018 REQUEST	2019 OUTLOOK	2020 OUTLOOK	2021 OUTLOOK	2022 OUTLOOK
	PROJECT COSTS	CAPITAL ENVELOPE (Tax Levy)			
Healthy Community Initiatives Fund	\$ 600,000	\$ 600,000	\$ 600,000	\$ 600,000	\$ 600,000
In accordance with Section 5 of the By-Law 2016-18 on the Healthy Community Initiative Fund, the HCI funds form part of the City's Capital Fund and therefore the unspent balance at the end of each fiscal year, can be carried forward to be spent in future years on eligible capital projects in accordance with Section 7.	\$ 600,000	\$ 600,000	\$ 600,000	\$ 600,000	\$ 600,000

**Priority Setting:**  
The Healthy Community Initiative (HCI) Fund supports one of Council's strategic priorities, supporting the promotion of Greater Sudbury as a healthy community. HCI funds allocate \$50,000 annually to each of the 12 wards, with 75 per cent of the funds going to capital projects and 25 per cent to community grants. Funds will be issued to projects that promote community growth and contribute to the quality of life in Greater Sudbury as outlined in the approved By-Law 2016-18.

**Healthy Community Initiative Fund Policy - Eligible Expenditures:**  
As per By-Law 2016-18, the sum of eligible expenses in the categories of grants and donations, community event expenses, gifts and promotions for community events cannot exceed 25% of the HCI annual allocation per annum. The remaining 75% of the annual allocation is available only for eligible Capital projects to build, replace, repair or purchase municipally owned assets. A capital asset or expenditure may be defined as any expenditure to acquire or improve buildings or structures, playground structures, machinery or equipment, extension of utilities to or within a city property.

**Note 1:** Each approved request must positively advance at least one of the HCI priorities and at least one Sustainable Development Challenge as indicated below:

Healthy Community Initiative Priorities	Sustainable Development Challenge
(A) Human Health & Well-Being	Health Status Safety Poverty Educational Achievement Homelessness Ecosystems Lake Water Quality Youth Out-migration Employment Arts and Culture Infrastructure
(B) Civic Engagement / Social Capital	
(C) Environmental Sustainability	
(D) Economic Vitality

#### Notes:

- 1) Paramedic Services (EMS) capital projects are funded from the Capital Financing Reserve Fund - Emergency Medical Services. The City of Greater Sudbury and Ministry of Health and Long Term Care each contribute 50% funding to this reserve fund which are used for capital projects.
- 2) The capital envelope funding of \$431,233 in year 2022 will be part of the overall capital envelopes in 2022 when the capital budget policy will be revised in time for the 2019 Budget.
- 3) Year five of the five year Capital Budget includes an additional contribution from the Capital Financing Reserve Fund - Emergency Medical Services versus the contribution to reserves per the annual Operating Budget in order to meet lifecycle requirements.

#### Priority Setting:

Paramedic Services project priorities are based on a 10 year tangible capital asset plan using vehicle / equipment life cycles and utilization strategies.

**Notes:**

- 1) Tom Davies Square Complex Building consists of 200 Brady Street - TDS and 190 Brady Street - Police; excludes 199 Larch Street - Provincial Tower as separate capital budget.
- 2) Project will be funded from Capital Financing Reserve Fund - Buildings (\$300,000) and the Parking Improvements Reserve Fund (\$500,000).
- 3) Project will be funded from Capital Financing Reserve Fund - Buildings (\$65,000).
- 4) The DSS reports are required to be performed per legislation for each facility. Insufficient resources are available to complete all reports
- 5) BCA reports are ideally performed on a 5 year cycle.

**Notes:**

- 1) The annual operating budget includes a contribution to the Equipment and Vehicle Replacement Reserve Fund - Fleet of \$2,671,617 in 2018 with a 2% increase in future years.
- 2) This 5 year capital budget includes an additional contribution from (to) the Equipment and Vehicle Replacement Reserve Fund - Fleet of various amounts per year to meet the fleet life cycle replacement requirements.

**Priority Setting:**

Priority setting is based on review of each vehicle for its age and condition (ie. mileage, body condition, etc). Based on available funding, the most urgent vehicles required to be replaced based on age/conditions are recommended in the budget on a yearly basis.

S550	2003 Ford F250 4x4 Pickup Truck (being replaced with a full size van)	\$ 40,000	
S469	2004 Ford F250 Pickup	\$ 35,000	
S039	2007 Ford F250 Pickup	\$ 50,000	
S056	2007 Ford F350 Crew Cab c/w racking	\$ 55,000	
S007	2005 Chevrolet Express Van c/w Racking	\$ 55,000	
		\$ 235,000	8-10 Years
S625	2006 International Tandem Multi-Function Truck	\$ 267,500	
S616	2005 International Tandem Multi-Function Truck	\$ 267,500	
S617	2006 International Tandem Multi-Function Truck	\$ 267,500	
S615	2005 International Tandem Multi-Function Truck	\$ 267,500	
		\$ 1,070,000	10 Years
S835	2007 32 Yard, Dual stream Garbage Packer	\$ 330,000	
S836	2007 32 Yard, Dual stream Garbage Packer	\$ 330,000	
		\$ 660,000	8 years
S239	2004 Trackless MT5	\$ 155,000	
S247	2004 Trackless MT5	\$ 155,000	
		\$ 310,000	12 Years
	<b>Vehicle/Equipment Rebuilds</b>	\$ 200,000	Extends Life of Existing Units
	<b>Shelving Improvements</b>	\$ 10,000	20 Years
	<b>Total Funds for Fleet Capital - 2018</b>	\$ 2,690,000	

Note 1 - A total of 8 light duty vehicles will be replaced during 2018. Fleet management determines actual replacements based on year, mileage and assessing overall condition

### PROJECT FINANCING

### Reserves: Capital

### CAPITAL ENVELOPE (Tax Levy)

### Notes:

- 1) Internal debt repayments from 2017 to 2023 towards the roof waterproofing of Tom Davies Square Parking Garage.
- 2) Parking Improvements Reserve Fund.

### Priority Setting:

Projects for 2017 Parking Improvements include resurfacing/asphalting parking lots and upgrading pay and display machines.
