

## Everyone Can Get Involved

There's much **YOU** can do to green up our City and help increase biodiversity:

- Plant shrubs and trees on your property.
- Join a garden club and learn how to propagate plants for greening our City.
- Volunteer to help with the Ugliest Schoolyard Contest and help regreen a place where kids grow and learn.
- Get involved with a local naturalists group or fish and game club to learn about wildlife habitat projects.
- Adopt-a-hill for your group to apply lime and plant trees and shrubs.

There's also a host of different wildlife monitoring initiatives **YOU** can get involved with, like:

- Frog Watch Ontario
- Ontario Turtle Tally
- Canadian Lake Loon Survey
- Christmas Bird Count
- Project FeederWatch
- Marsh Monitoring Program
- Ontario Forest Bird Monitoring Program

Seen individually these might seem like very small actions, but together they really make a difference.
