We have audited the consolidated statement of financial position of the **City of Greater Sudbury** as at December 31, 2005 and the consolidated statements of financial activities and cash flows for the year then ended. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

(iii) Equity Accounting:

Government business enterprises comprised of the Greater Sudbury Utilities Inc./Services Publics du Grand Sudbury Inc. ("GSU"), Sudbury Community Development Corporation ("SCDC") and the Sudbury Airport Community Development Corporation ("SACDC"), are accounted for by the modified equity method.

Under the modified equity basis, the business enterprise's accounting principles are not adjusted to conform with those of the City and inter-organization transactions and balances are not eliminated.

1. Significant accounting policies (continued):

(b) Fund Accounting:

Funds within the consolidated financial statements consist of current, capital and reserve funds. Transfers among funds are recorded as adjustments to the appropriate municipal fund balance.

Trust funds and their related operations administered by the City are not included in these financial statements but are reported on separately on the Trust Funds financial statements.

(c) Basis of Accounting:

Sources of financing and expenditures are reported on the accrual basis of accounting.

The accrual basis of accounting recognizes revenues as they become available and measurable. Expenditures are recognized as they are incurred and measurable as a result of receipt of goods or services and the creation of a legal obligation to pay.

(d) Investments:

Investments are recorded at cost. Temporary declines in the market value of the long-term investments are not adjusted.

(e) Capital Assets:

The historical cost and accumulated depreciation of fixed assets are not reported for municipal purposes. Capital assets are reported as an expenditure on the consolidated statement of operations and fund balances in the year of acquisition.

(f) Inventory:

Inventory is valued at the lower of cost and replacement cost.

(g) Pensions and Employee Benefits:

The City accounts for its participation in the Ontario Municipal Employee Retirement Fund (OMERS), a multi-employer public sector pension fund, as a defined benefit plan.

Vacation entitlements are accrued for as entitlements are earned.

Sick leave benefits are accrued where they are vested and subject to pay out when an employee leaves the City's employ.

Other post-employment benefits are accrued in accordance with the projected benefit method prorated on service and management's best estimate of salary escalation and retirement ages of employees. The discount rate used to determine the accrued benefit obligation was determined by reference to market interest rates at the measurement date on high-quality debt instruments with cash flows that match the timing and amount of expected benefit payments.

1. Significant accounting policies (continued):

(h) Deferred Revenue - Obligatory Reserve Funds:

The City receives certain subdivider contributions and other revenues under the authority of provincial legislation and City by-laws. These funds, by their nature, are restricted in their use and, until applied to specific expenditures, are recorded as deferred revenue. Amounts applied to qualifying expenditures are recorded as revenue in the fiscal period they are expended.

(i) Amounts to be Recovered:

Amounts to be recovered make up part of the Municipal position, which includes balances for accrued interest on long-term debt, outstanding long-term liabilities, liability for solid waste management facility liability and liabilities for employee benefits.

(j) Taxation and Related Revenues:

Property tax billings are prepared by the City based on assessment rolls issued by the Municipal Property Assessment Corporation (MPAC). Tax rates are established annually by City Council, incorporating amounts to be raised for local services and amounts the City is required to collect on behalf of the Province of Ontario in respect of education taxes.

A normal part of the assessment process is the issue of supplementary assessment rolls which provide updated information with respect to changes in property assessment. Once a supplementary assessment roll is received, the City determines the taxes applicable and renders supplementary tax billings. Taxation revenues are recorded at the time tax billings are issued.

Assessments and the related property taxes are subject to appeal. Tax adjustments as a result of appeals are recorded when the result of the appeal process is known.

The City is entitled to collect interest and penalties on overdue taxes. These revenues are recorded in the period the interest and penalties are levied.

(k) Use of Estimates:

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting periods. Actual results could differ from these estimates.

Solid waste closure and post-closure care requirements have been defined in accordance with industry standards and include final covering and landscaping of the landfill, pumping of ground water and leachates from the site, and ongoing environmental monitoring, site inspection and maintenance. The reported liability is based on estimates and assumptions with respect to events extending over a twenty-five year period using the best information available to management. (c) Contingent liabilities:

As at December 31, 2005, certain legal actions are pending against the City. An estimate of the contingency cannot be made since the outcome of these matters is indeterminate. Should any loss result from the resolution of these matters, such loss would be charged to operations in the year of disposition.

12. Pension agreement:

The Municipality matches contributions made by the employees to OMERS, which is a multi-employer plan. This plan is a defined benefit plan, which specifies the amount of the retirement benefit to be received by the employees based on the length of service and rates of pay.

The amount contributed to OMERS in 2005 was \$7,072 (2004 - \$5,983).

13. Budget figures:

Budgets established for capital funds, reserves and reserve funds are based on a project-oriented basis, the costs of which may be carried out over several years. Current revenue fund budgets are affected on an ongoing basis, depending on when various government programs become available to the City. Accordingly, the budgets are not directly comparable with current year actual amounts and therefore, budgets have not been reflected on the consolidated statement of financial activities.
