

Junction Creek Stewardship Committee

Then, Now and the Next Few Years

A grassroots group

Formed in 1999 to coordinate citizen participation in restoring Sudbury's main urban waterway.

“To restore all life to the Junction Creek ecosystem: wildlife, insect and plant life, and to improve the quality of life for humans as well.”

Achievements

• *Restoration and Cleanup*

More than
10,000 trees
planted

40,000 kg of
garbage collected

Habitat restoration:
7,000 brook trout
released

Water quality monitoring

Participation

- Over 3,000 elementary and secondary students participated in awareness programs
- 16 Adopt-a-Creek groups

More than 4,000 volunteers

Key to our Success

- ✓ We have had a paid coordinator for 6 years
- ✓ We have raised over \$430,000

**Five-year Action Plan for the Restoration of
Junction Creek
2005 to 2010**

Junction Creek Stewardship Committee

Mission:

"To restore all life to the Junction Creek ecosystem; native wildlife, insect and plant life, and to improve the quality of life for humans as well."

Looking ahead:

- **Rehabilitation**
- **Awareness**

Completing the 5-year plan by 2010

\$160,000 over 4 years

- **\$80,000 from CVRD-Inco
*already committed***
- **\$80,000 from the City
of Greater Sudbury**

Request to the City of Greater Sudbury

\$80,000 over 3 years

- **\$30,000 this year**
- **\$30,000 in 2008**
- **\$20,000 in 2009**

Thank you for your support!
