---

*FOR THE EIGHTH SPECIAL MEETING  
OF THE COUNCIL OF THE CITY OF GREATER SUDBURY  
TO BE HELD ON THURSDAY, JANUARY 6, 2005 AT 4:00 P.M.  
IN COUNCIL CHAMBER, TOM DAVIES SQUARE*

---

This is a Special Meeting of Council called by Mayor David Courtemanche in accordance with Article 7.5 of Procedure By-law 2002-202 in order to process the application for the Intake One of the Canada Ontario Municipal Rural Infrastructure Fund (COMRIF) program and meet the deadline of Monday, January 10<sup>th</sup>, 2005. Council must complete its prioritization of infrastructure projects to be submitted for COMRIF funding and to adopt that prioritized list by resolution of Council as part of the City's application for funding prior to the January 10<sup>th</sup>, 2005 deadline, introduce and enact any necessary resolutions and/or by-laws to enable staff to make application for COMRIF funding, and, introduce and enact a confirming by-law for this Special Meeting.

## **MAYOR COURTEMANCHE, CHAIR**

1. Roll Call
2. Declarations of Pecuniary Interest
3. Council to meet as Committee of the Whole, to be Chaired by Deputy Mayor Craig.

## **COMMITTEE OF THE WHOLE** **DEPUTY MAYOR CRAIG, CHAIR**

### **MANAGERS' REPORTS**

4. Report dated 2005-01-05, with attachments, from the General Manager of Infrastructure & Emergency Services regarding Canada-Ontario Municipal Rural Infrastructure Fund Application.  
(ELECTRONIC PRESENTATION)

1 - 72

- ▶ Bob Falcioni, Roads & Drainage Engineer

(At the December 8, 2004 Finance Committee meeting, Council passed two resolutions, 2004-67 and 2004-68. Resolution 2004-68 identified improvements and rehabilitation of roads and bridges as its highest priority for submission under the Canada-Ontario Municipal Rural Infrastructure Fund (COMRIF). This application is to be submitted for January 10, 2005 which will include a list of projects identified in the report dated 2005-01-05.)

**MATTERS ARISING FROM THE COMMITTEE OF THE WHOLE MEETING**

At this point in the meeting, Deputy Mayor Craig will rise and report any matters discussed during the Committee of the Whole session. Council will then consider any resolutions or by-laws.

**(RESOLUTION PREPARED - COMRIF FUNDING)**

**RESOLUTION:** THAT Council endorse the application as presented by the General Manager of Infrastructure & Emergency Services dated January 6, 2005;

AND THAT the application be submitted to COMRIF.

**BY-LAWS**

**THE FOLLOWING BY-LAW APPEARS FOR THREE READINGS:**

2005-1A    3    A BY-LAW OF THE CITY OF GREATER SUDBURY TO  
CONFIRM THE PROCEEDINGS OF COUNCIL AT ITS SPECIAL  
MEETING OF JANUARY 6<sup>TH</sup>, 2005

**ADJOURNMENT (RESOLUTION PREPARED)**

**2005-01-06**

**THOM M. MOWRY  
CITY CLERK**

**CORRIE-JO CAPORALE  
COUNCIL SECRETARY**

## Report Title

Canada-Ontario Municipal Rural Infrastructure Fund Application

### Policy Implication + Budget Impact

This report and recommendation(s) have been reviewed by the Finance Division and the funding source has been identified.

This certifies that this future commitment is within the Annual Repayment Limit for the City of Greater Sudbury as re-calculated.

  
S. Jonasson,  
Acting CFO / Treasurer

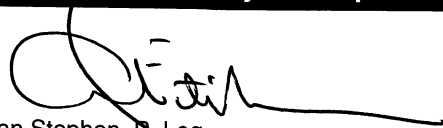

Background Attached

### Recommendation

It is recommended that Council endorse the application as presented by the General Manager of Infrastructure and Emergency Services dated January 6<sup>th</sup>, 2005, and that the application be submitted to COMRIF.

Recommendation Continued

### Recommended by the Department Head

  
Alan Stephen, P. Log  
General Manager of Infrastructure and Emergency Services

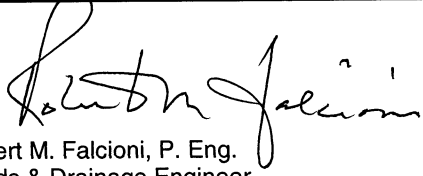

### Recommended by the C.A.O.

  
Mark Mieta  
Chief Administrative Officer

1

Date: January 5<sup>th</sup>, 2005

**Report Prepared By**

Robert M. Falcioni, P. Eng.  
Roads & Drainage Engineer

**Division Review**

Background:

On December 8<sup>th</sup>, 2004, Council passed a resolution identifying improvement and rehabilitation of roads and bridges as its highest priority for submission under the Canada-Ontario Municipal Rural Infrastructure Fund.

Staff are preparing an application for submission for January 10<sup>th</sup>, 2005 and included in that submission is a list of projects identified in the attached report.

The recommended program totals \$46,990,200., with net eligible costs of \$45,000,000.

The program is broken into three sub-projects, one for Bridges, one for Road Improvements and one for Road Reconstruction, as per the attached Summary Breakdown (see Exhibit I).

The program requires specific evaluation criteria with MTO being the approval agency for Road Projects. This criteria includes twenty factors used to determine a Road Sufficiency Index (RSI). Very few of these factors relate to our road needs. Attached (see Exhibit II), are copies of correspondence from Thunder Bay expressing similar concerns.

In discussions with MTO staff, they have agreed they would look at our Bridge Condition Survey (see Exhibit III) completed in 2000 and our current Pavement Management Study (see Exhibit IV), as technical support for our submission. The submission will also include a draft summary of our current Transportation Study being undertaken as part of our Official Plan Review, (see Exhibit V).

It is understood that these documents are updated on an annual basis and priorities will be adjusted accordingly.

Funding for the City's share of this program will be provided through our yearly Capital Roads Program. When additional funding has been approved, there may be a requirement to adjust our 2005 Capital Roads Program to ensure the City's contribution. Any changes will be brought back to Council.

OFFICE OF THE MAYOR

December 13, 2004

Tel: (807) 625-3600  
Fax: (807) 623-1164

The Honourable David Caplan  
Minister of Public Infrastructure Renewal  
6th Floor, Frost Building South  
7 Queen's Park Crescent  
Toronto, Ontario M7A 1Y7

Dear Minister Caplan:

Thank you again for meeting with the Northern Ontario Large Urban Mayors to listen to our views on your governments plans for growth in Ontario and in Northern Ontario, in particular. I believe it is imperative that the Ministry of Northern Development's Northern Prosperity Plan is supported through your Ministry with a comprehensive complimentary plan. I cannot state strongly enough how important we feel it is to work together with your Ministry and others to ensure that the enormous potential of Northern Ontario is realized.

Minister, I have concerns about your recently announced COMRIF program. The City of Thunder Bay and many other northern municipalities have been eagerly awaiting the financial assistance the Federal and Provincial governments have agreed is necessary to help municipalities address their aging infrastructure needs. We were particularly pleased with the announcement of the COMRIF program designed to assist urban and rural municipalities with less than 250,000 residents.

In response to your announcement of the COMRIF program, the City of Thunder Bay has identified and will be submitting an application for our most pressing infrastructure needs. Our priority infrastructure requirements include the rehabilitation of local roads in poor condition and the replacement of failing hollow core sidewalks. The need for this work has been well documented and is needed to address safety issues and/or avoid significant additional costs associated with more expensive reconstruction. Council has confirmed the need for an annual program of \$10,000,000 for road rehabilitation and \$1,000,000 per year for sidewalk replacement and has authorized Administration to submit an application to COMRIF for a four year program totaling \$44,000,000.

Unfortunately, recent discussions with COMRIF Committee staff have indicated that water, wastewater and solid waste projects will have the highest rating and roads, our prime need, will have the lowest rating. Having regard for this information, I cannot overemphasize to you my extreme disappointment with the proposed criteria being used to evaluate COMRIF application priorities.

I cannot see the relevance of the Roads Sufficiency Index (RSI) which MTO will use to rate the priorities for roads. The RSI includes twenty factors, of which only one relates to pavement quality and yet pavement quality is the major factor that applies to road needs for Northern municipalities. We are not building roads to handle high growth traffic; we are trying to maintain existing roads before they fall to pieces.

*MM*  
*FYI*  
*Paul*

The Honourable David Caplan  
Minister of Public Infrastructure Renewal

December 13, 2004

Minister, we find ourselves in the position that even though we have identified significant roadway and sidewalk infrastructure as our most urgent need, we are being advised that because of the proposed evaluation criteria, COMRIF funding will likely be consumed by water and sewer projects before road projects are even considered. This is significant concern as the City of Thunder Bay is in the middle of a \$91,000,000 Pollution Prevention and Control program that will provide state of the art sewage treatment facilities. We appreciate the outside assistance of \$25,000,000 through the CSIF grant for this project, however, the remaining 73 percent of funding must come from user fees. As well, the City of Thunder Bay has recently started construction on a \$90,000,000 Water Supply Enhancement program. We have secured Provincial assistance of \$11,000,000 and almost \$500,000 coming from the Federal government nevertheless the remaining 88 percent of funding will also have to come from user fees. Neither of these projects was eligible for OSTAR funding as our population is marginally above the 100,000 ceiling for this program. Now because both of these projects are already underway they are not eligible for COMRIF funding either.

It is difficult to understand how a program designed to address the aging infrastructure of municipalities with populations less than 250,000 seems to be designed to exclude those that have already invested heavily into water, wastewater and solid waste projects. It would seem that our reward for proactive investment in public health and safety and the environment using primarily local funding is to be excluded from assistance under the COMRIF program.

Minister, your government seems to understand that one size does not fit all and that each community knows what their most urgent needs are. I would request that you ensure the criteria for access to COMRIF treats every community fairly.

Sincerely,

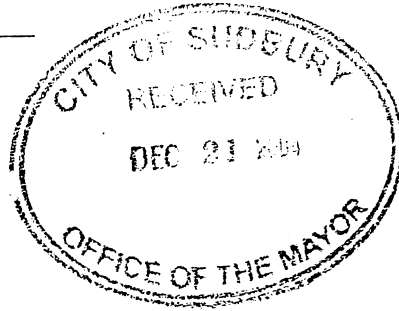

Mayor Lynn Peterson  
City of Thunder Bay

The Honourable Joe Comuzzi  
Minister of State (Fednor)  
215 Van Norman Street, Suite 4  
Thunder Bay, Ontario  
P7A 4B6

Dear Minister Comuzzi:

The City of Thunder Bay and many other northern municipalities have been eagerly awaiting the financial assistance the Federal and Provincial governments have agreed is necessary to help municipalities address their aging infrastructure needs. We were particularly pleased with the announcement of the COMRIF program designed to assist urban and rural municipalities with less than 250,000 residents.

In response to your announcement of the COMRIF program, the City of Thunder Bay has identified and will be submitting an application for our most pressing infrastructure needs. Our priority infrastructure requirements include the rehabilitation of local roads in poor condition and the replacement of failing hollow core sidewalks. The need for this work has been well documented and is needed to address safety issues and/or avoid significant additional costs associated with more expensive reconstruction. Council has confirmed the need for an annual program of \$10,000,000 for road rehabilitation and \$1,000,000 per year for sidewalk replacement and has authorized Administration to submit an application to COMRIF for a four year program totaling \$44,000,000.

Unfortunately, recent discussions with COMRIF Committee staff have indicated that water, wastewater and solid waste projects will have the highest rating and roads, our prime need, will have the lowest rating. Having regard for this information, I cannot overemphasize to you my extreme disappointment with the proposed criteria being used to evaluate COMRIF application priorities.

I cannot see the relevance of the Roads Sufficiency Index (RSI) which MTO will use to rate the priorities for roads. The RSI includes twenty factors, of which only one relates to pavement quality and yet pavement quality is the major factor that applies to road needs for Northern municipalities. We are not building roads to handle high growth traffic; we are trying to maintain existing roads before they fall to pieces.

Minister, we find ourselves in the position that even though we have identified significant roadway and sidewalk infrastructure as our most urgent need we are being advised that because of the proposed evaluation criteria, COMRIF funding will likely be consumed by water and sewer projects before road projects are even considered. This is significant concern as the City of Thunder Bay is in the middle of a \$91,000,000 Pollution Prevention and Control program that will provide state of the art sewage

The Honourable Joe Comuzzi  
Minister of State (Fednor)

DEC 22 2004

Mayor Lynn Peterson  
City of Thunder Bay  
500 Donald Street east  
Thunder Bay, Ontario  
P7E 5V3

Dear Mayor Peterson:

Thank you for your letter of December 13, 2004 regarding infrastructure programming in Ontario.

As you are aware, on November 15, 2004, I along with my colleague the Honourable John Godfrey, Minister of State (Infrastructure and Communities), and David Caplan, Ontario Minister of Public Infrastructure Renewal and John Gerretsen, Ontario Minister of Municipal Affairs and Housing, launched the Canada-Ontario Municipal Rural Infrastructure Fund (COMRIF). We were very pleased to have the participation of Roger Anderson, President of the Association of Municipalities of Ontario (AMO) at the launch where we also signed a cooperation agreement with the association.

The Governments of Canada and Ontario are each contributing up to \$298 million to COMRIF, which targets the infrastructure needs of small urban and rural communities with a population of less than 250,000 people. COMRIF focuses on local needs through infrastructure improvements to provide cleaner water, better sewage systems, improved waste management processes, safer local roads and bridges as well as other health and safety priorities.

The participation of AMO in the development of this new program has been a welcome innovation. As a Vice-President of the Board of Directors of AMO, you will appreciate the efforts put forth by your association. AMO has been active in the design of COMRIF to ensure the program meets the local priorities and needs. AMO will continue to provide the municipal perspective in the overall management and evaluation of the program, and will disseminate COMRIF information to its membership. Quite frankly, I am at a loss to understand your position that you now do not agree with the Criteria as set out in the Agreement of which AMO was a partner.

... / 2

I would like to take this opportunity to address the specific concerns as outlined in your letter:

All project applications will be ranked against the same criteria - health and safety, value for money, and public policy priorities. With regard to the use of the Roads Sufficiency Index (RSI) for the evaluation of road projects, this is only one component of the overall project assessment for this category. While you state in your letter that the only relevant RSI factor for Thunder Bay is pavement quality, I would like to point out that among the 20 elements rated, design speed, road width, vertical alignment, horizontal alignment, flooding erosion, ditches and sewers, guiderails, alternate route suitability, intersections, accidents, road safety improvement, pedestrian or bike traffic and weight restrictions are all health and safety elements included in the calculation of the RSI.

The Ministry of Transportation (MTO), as the technical ministry responsible for roads and bridges, participates as a member of the federal-provincial COMRIF Joint Secretariat and prepares the RSI for use in the evaluation of all road projects. It is important to remember that COMRIF has been designed to address high priority health and safety needs, not the ongoing maintenance of local infrastructure, which falls purely within the responsibility of local governments. If road or bridge projects rank sufficiently high in terms of health and safety issues that need to be addressed, they will be given appropriate consideration.

The federal and provincial governments also recognized the situation that Thunder Bay faced as one with a population marginally above 100,000, making it ineligible for the provincial Ontario Small Town and Rural Development (OSTAR) program and the corresponding federal funds under the Canada-Ontario Infrastructure Program (COIP). In order to address this inequity, I understand that the Government of Ontario provided \$11 million under its Millennium initiative for the Water Supply Enhancement project. For our part, the Government of Canada provided \$25 million under the Canada Strategic Infrastructure Fund (CSIF) for the Thunder Bay Pollution Prevention and Control project, approximately \$500,000 of which is being used for elements related to both projects.

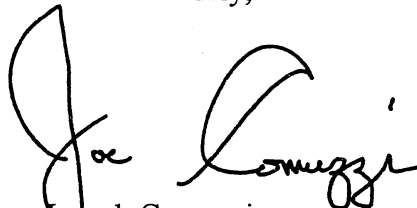

Thank you, once again, for your letter. I believe you will agree that our community has been very well served by recent federal and provincial infrastructure investments. I would encourage your officials to continue to review your infrastructure needs and to prepare an application for your highest priority project to COMRIF. Staff of the COMRIF Joint Secretariat are always available to assist your officials at 1-866-306-7827 or by visiting our website at [www.comrif.ca](http://www.comrif.ca).

... / 3

I am very proud of the leadership shown by Prime Minister Martin and all of his members with his pledge to assist all municipalities in Canada; the Infrastructure Programs, the federal assistance on the Shabaqua extension, the G.S.T. Rebate and the Gas Tax Rebate that will be forthcoming and other initiatives to assist communities presently being discussed, all in the first year of government.

Let me emphasize again that not only will Thunder Bay benefit but all of Northern Ontario will benefit. However, this can only happen when all levels of government work together and harmoniously to achieve our goals. I trust that you and your council will realize the benefits of co-operative government.

Yours sincerely,

Joseph Comuzzi
