Attn: Madison Keegans, Source Water Program Manager

Re: City of Greater Sudbury, Risk Management Official's 2022 Annual Report

Dear Ms. Keegans,

Please find attached a copy of the City of Greater Sudbury Risk Management Official's Report for the 2022 year of Part IV Source Protection Plan Policy implementation. Please do not hesitate to contact me, should the Source Protection Authority have any questions or concerns.

Yours truly,

Andre Frappier
Acting Legislative Compliance Supervisor (RMO/RMI)
Water Wastewater Treatment and Compliance
City of Greater Sudbury

cc: Joel Castonguay, Manager of Compliance and Operational Support
Jessica Brunette, Environmental Compliance Officer (alt. RMO/RMI)
Lana Haslam, Environmental Compliance Officer (alt. RMO/RMI)
Heidi Chartier, Environmental Compliance Officer (alt RMO/RMI)

1. Introduction
2. Risk Management Officials and Inspectors
 - 2.1 Appointment by Council
 - 2.2 Required Training (O. Reg. 287/07)
 - T.1 Risk Management Office Staff Information
3. The Risk Management Office in Water/Wastewater Treatment and Compliance
 - 3.1 Activity Prohibition, Risk Management Plans, Restricted Land Use Review of Planning Applications & Building Permits and Risk Assessments
 - 3.2 Data and Program Management
 - 3.3 Section 59 Notices
 - F.1 Total Applications Received vs. Section 59 Notices Required
 - 3.3.1 Building Permits
 - 3.3.1 Planning Act Applications
 - 3.4 Threats Verification
 - 3.5 Summary of other duties of the City's Risk Management Office
4. Part IV Implementation
 - F.2 Part IV Implementation Distribution
 - 4.1 Number of Risk Management Plans Agreed to or Established
 - 4.2 Number of Risk Management Plans that the Risk Management Official refused to agree to or establish
 - 4.3 Number of Files that have not required Risk Management Plans or Prescribed Instruments
 - 4.4 Number of Orders under Part IV
 - 4.5 Number of Notices of Prescribed Instrument given to the Risk Management Official
 - 4.6 Number of Prescribed Instrument Termination Notices given by the Risk Management Official
 - 4.7 Number of inspections carried out for the purpose of enforcement
 - 4.7.1 Total number of inspections that were carried out
 - 4.7.2 Activities that require a Risk Management Plan
 - 4.7.3 Non-compliant Risk Management Plan Inspections
 - 4.7.4 Prohibited activity inspections and contraventions
 - 4.8 Number of Risk Assessments submitted
 - 4.9 Number of times the Risk Management Official caused a thing to be done
 - 4.10 Total number of offences which resulted in prosecution
5. New, Altered or Decommissioned Drinking Water Systems

1. Introduction

This annual report is provided in accordance with the *Clean Water Act (the Act)*, 2006, Part IV, s. 81. It outlines the activities undertaken in the 2022 calendar year by the City of Greater Sudbury's Risk Management Official.

2. Risk Management Officials and Inspectors

2.1 Appointment by Council

The City of Greater Sudbury's Appointment of Officials By-law 2019-193, Schedule B, Part 1 appoints statutory roles by positions, as per the *Clean Water Act*, S. O. 2006, c. 22, s. 47(6). The Legislative Compliance Supervisor is appointed as the Risk Management Official (RMO). The Manager of Compliance and Operational Support or Environmental Compliance Officer(s) are appointed as Risk Management Inspector (RMI) and alternate RMO. The Appointment of Officials By-law is routinely amended to reflect staffing changes.

Certificates of Appointment's were issued to each certified RMO and RMI by the City Clerk, which satisfies subsection 47(7) of the *Act*.

2.2 Required Training (O. Reg. 287/07)

The RMO and RMIs have completed the Ministry of Environment Conservation and Parks (MECP) Source Protection Property Entry and RMO/RMI training courses as per O. Reg. 287/07 under the *Act*. Staff members are responsible to complete the online re-certification training every 5 years.

Table 1. Risk Management Office Staff Information

Staff Name	Title/Role	Email/Phone	Property Entry Training Course or Renewal Date	RMO/ RMI Training Course or Renewal Date	Expiry/ Renewal Date
Castonguay, Joel	Manager of Compliance and Operational Support	joel.castonguay@greatersudbury.ca (705) 674-4455 ext. 3666	TBD	TBD	TBD
Desjardins, Amanda (ON LEAVE)	Legislative Compliance Supervisor (RMO)	Amanda.desjardins@greatersudbury.ca (705) 674-4455 ext. 4307	July 2019	September 2019	September 2024
Frappier, Andre	Acting Legislative Compliance Supervisor (RMO)	Andre.frappier@greatersudbury.ca (705) 674-4455 ext. 4827	March 2021	March 2021	March 2026
Brunette, Jessica	Water/Wastewater Environmental Compliance Officer (RMI/alt. RMO)	jessica.brunette@greatersudbury.ca (705) 674-4455 ext. 4820	August 2022	December 2022	December 2027

Staff Name	Title/Role	Email/Phone	Property Entry Training Course or Renewal Date	RMO/ RMI Training Course or Renewal Date	Expiry/ Renewal Date
Haslam, Lana	Water/Wastewater Environmental Compliance Officer (RMI/alt. RMO)	lane.haslam@greatersudbury.ca (705) 674-4455 ext. 3658	March 2022	May 2022	May 2027
Chartier, Heidi	Water/Wastewater Environmental Compliance Officer (RMI/alt. RMO)	Heidi.chartier@greatersudbury.ca (705) 674-4455 ext. 3671	August 2020	October 2020	October 2025
Granthien, Ian	Water/Wastewater Environmental Compliance Inspector	ian.granthien@greatersudbury.ca (705) 674-4455 ext. 1485	TBD	TBD	TBD

Two staff members have completed their re-certification training in 2022. The Manager of Compliance and Operational Support and the newly hired Water/Wastewater Environmental Compliance Inspector will complete the training in March 2023 if schedules permit.

3. Risk Management Office in Water/Wastewater Treatment and Compliance

The City of Greater Sudbury passed a Source Water Protection By-law 2015-34 respecting enforcement of the *Clean Water Act, 2006*. All required sections of Part IV of the *Act* are included in the By-law. As per section 55 of the *Act*, a Prescribed Fees Schedule was also incorporated in Schedule A.

A review of the by-law and prescribed fee schedule was completed in 2021 and 2022. The following amendments were recommended to reflect the current process of enforcement and implementation of the *Clean Water Act*. They are as follows:

- updated terms and definitions
- addition of standard legal interpretation and severability/conflict sections
- clarification of the Risk Management Officials delegated authorities as found in the *Clean Water Act*
- increased prescribed fees and planned relocation of fees to the more appropriate Water Wastewater Rates By-law (revised annually)

The proposed amendment will go to Council for review and approval in 2023, after budget deliberations are completed with newly elected Mayor and Council.

3.1 Activity Prohibition (Section 57), Risk Management Plans (Section 59), Restricted Land Use Review of Planning Applications & Building Permits and Risk Assessments (Section 60)

The development status of all Section 57, 58, 59 & 60 processes are considered complete and/or implemented.

3.2 Data and Program Management

The City continues to develop better ways of managing its data. One such improvement includes the development of a web-based Land Management Information System (LMIS). This system is intended to manage Building Permits and Planning Applications received by residents and developers within the City. Part of this process includes the Section 59 Restricted Land Use Review requirement for applications within vulnerable areas. Designated staff will be notified in their email accounts to conduct the review. The LMIS allows users to request additional information from the applicant, select a decision for the review (permitted, permitted with approved RMP, prohibited, not permitted until a RMP has been agreed to), and distribute the completed review package to the appropriate department and applicant.

The business items for each task of the Section 59 Review process were mapped out with the working group throughout 2021. The system was set to begin its training phase spring of 2022 with a final launch in early fall. Unfortunately, many process delays occurred in 2022. The new launch date is set for Q2 2023 for Building Services, with additional permit types and services onboarded throughout the remainder of 2023.

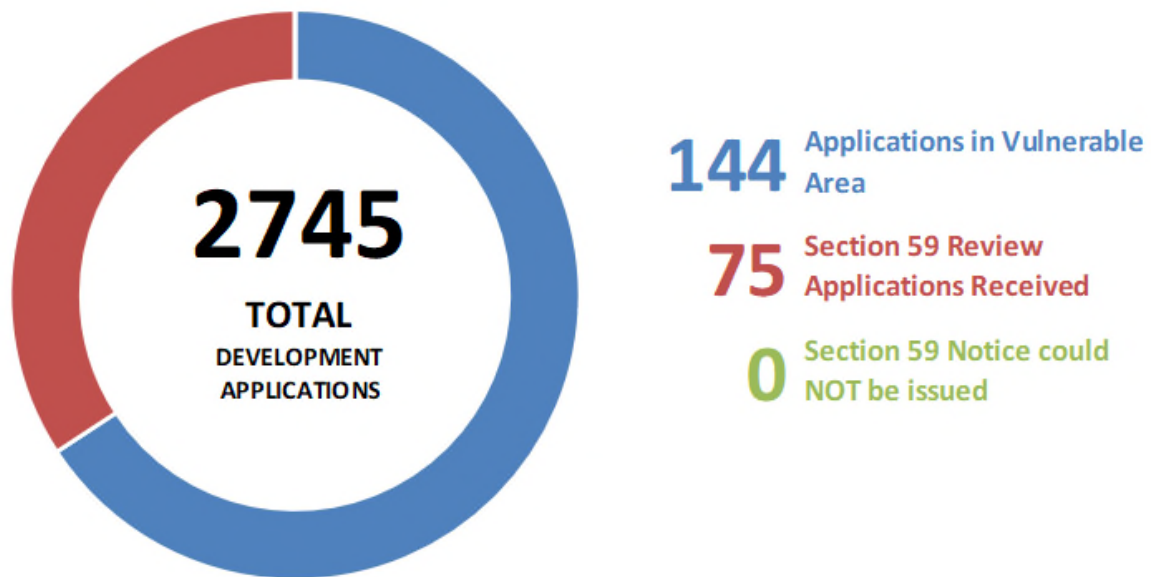

3.3 Section 59 Notices

The Section 59 Restricted Land Use Review process was established internally prior to the effective date of the SPP. Together, Planning and Building Services along with the RMO Office continue to effectively screen a variety of Planning Act applications and Building Permit applications. If criteria are not met for the required Source Protection screening, a memo regarding unrelated projects on properties that may still have existing threat activities is forwarded to the Risk Management Office for information purposes.

The screening of the various applications received by the City result in one of four outcomes:

- Permitted, and a Notice issued,
- Prohibited, and a letter is provided detailing the reason for prohibition,
- Permitted with approved Risk Management Plan (RMP), and a Notice is Issued, or
- Not permitted until a RMP has been agreed to/established, and a letter detailing the requirements is provided.

Below is a summary of the reviewed applications for the 2022 reporting year.

Figure 1: Total Applications Received vs. Section 59 Notices Required**3.3.1 Building Permits**

Total number of Permits received:

a) City-wide:	2394
b) Vulnerable Areas:	94
c) Required review by the RMO:	26
d) Section 59 Notice could NOT be issued:	0
i. Required a Risk Management Plan:	N/A
ii. Prohibited:	N/A
e) Section 59 Notice was issued:	26
f) Section 59 Review was not required:	63
g) Still under review (carried over into 2022):	0

3.3.2 Planning Act Applications

Total number of applications received:

a) Site Plan Control Agreements (SPCAs) city-wide:	27
i. SPCA's reviewed by RMO:	2
ii. SPCAs for which a Section 59 Notice could NOT be issued (we allow a Hold to be issued pending a RMP):	0
b) Re-Zoning Applications city-wide:	35
i. Re-zonings reviewed by RMO:	6

ii. Re-Zonings for which a Section 59 Notice could NOT be issued (pending RMP):	0
c) Number of Official Plan Amendment Applications city-wide:	4
i. Reviewed by RMO:	2
d) Number of Consent Applications city-wide:	120
i. Reviewed by RMO:	12
e) Number of Minor Variances city-wide:	165
Reviewed by RMO:	27
Number of Plan of Subdivision Applications city-wide:	0
Reviewed by RMO:	0
Number of Plan of Condominium Applications city-wide:	0
Reviewed by RMO:	0

3.4 Threats Verification

The Risk Management Inspectors conduct threat verification screening inspections in accordance with the *Act*. A total of **51** sites have been identified as having potential threats. This number does not represent additional field visits, background research or other communications encountered.

3.5 Summary of other duties of the City's Risk Management Office

The Risk Management Office, in addition to Part IV responsibilities, guides the various stakeholders at the City in the implementation of all policies for which the City of Greater Sudbury was named the implementing body.

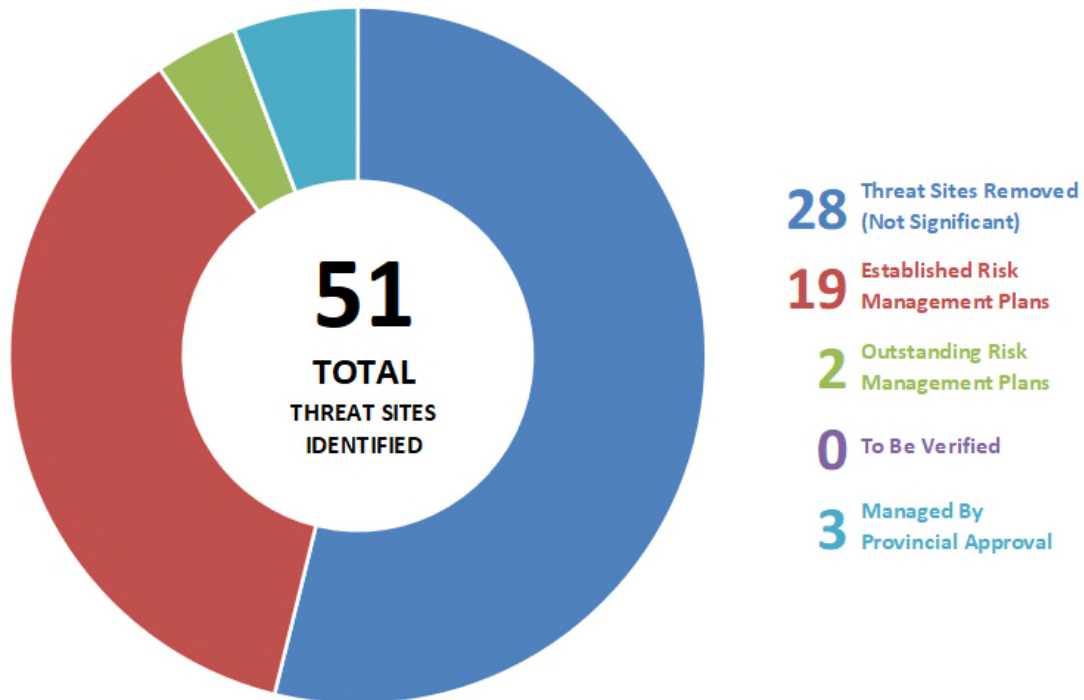

Education and Outreach initiatives continue to be crucial elements to the effective delivery of all Water/Wastewater Treatment and Compliance Services in the community. In partnership with the Environmental Planning Initiatives Section and the Water/Wastewater Task Force, every effort is made to convey Source Protection related information to the public.

4 Part IV Implementation

The following section fulfills the requirements laid out in Section 65 of O. Reg. 287/07. Since the inception of the SPP, 51 files have been opened to investigate the potential requirement for Risk Management Plans. Through the implementation of the program, it has been revealed that not all properties previously identified have required Risk Management Plans.

See Figure 2 below for a distribution of the status of each identified Part IV file.

Figure 2: Part IV Implementation Distribution

Note:

- One site has an established Risk Management Plan and a Provincial Instrument associated with it.
- The status of the two (2) outstanding RMP files is as follows:
 - One future threat from the Section 59 review process
 - One newly discovered existing threat

The following tables provide a detailed summary of each site:

4.1 Number of Risk Management Plans agreed to (Section 58 (5)) or established (Section 58 (10) or (12)): 19

File No.	Location	WHPA/ IPZ/ICA	Activity	Notes
RMP-03	935 Ramsey Lake Road, Sudbury (Laurentian, Thorneloe, Huntington, U of Sudbury Universities)	Ramsey Lake IPZ 3(9)/ICA	Application of road salt/storage of snow Handling and storage of road salt	Existing threat, identified at SPP approval
RMP-02	1818 Kenneth Drive, Hanmer, (American Iron & Metal)	Kenneth WHPA A, B(10) & C(8)	Handling and storage of fuel	Existing threat, identified at SPP approval, RMP required because of changes to Threats Tables and change in ownership
RMP-07	367 Linden Drive, Hanmer (Paramount Acres)	Linden WHPA C(8); R Well WHPA B(10) & C(8)	Livestock grazing/pasturing Application of ASM Handling and storage of ASM	Existing threat, identified at SPP approval

RMP-26	Industrial	Yes	Storage and Handling of Road Salt	RMP finalized. RMP being adhered to.
RMP-27	Industrial	No	Application of Road Salt/Handling and Storage of Road Salt/ Storage of Snow	Ensure significant threat activities not occurring without an RMP.
RMP-28	Commercial	Yes	Storage of Snow/ Application of Road Salt	RMP being adhered to.
RMP-29	Institutional	No	Storage of Snow/ Application of Road Salt	Ensure significant threat activities not occurring without an RMP.
RMP-30	Commercial	Yes	Storage of Snow/ Application of Road Salt	RMP being adhered to.
RMP-31	Industrial	Yes	Storage of Snow	RMP being adhered to.
RMP-32	Industrial	Yes	Storage of Snow	RMP being adhered to.
RMP-33	Commercial	No	Handling and Storage of Pesticides	Ensure significant threat activities not occurring without an RMP.
RMP-34	Commercial	Yes	Storage of Snow/ Application of Road Salt	RMP being adhered to. RMP to be amended to incorporate proposed future expansion of existing activities
RMP-35	Commercial	Yes	Storage of Snow, Handling and Storage of Road Salt, Application of Road Salt	RMP being adhered to.
RMP-36	Commercial	Yes	Storage of Snow, Handling and Storage of Road Salt, Application of Road Salt, Application of Pesticide	RMP being adhered to.

File No.	Type of Property	RMP Required	Activity	Details
RMP-37	Commercial	No	Storage of Snow/Application of Road Salt	Ensure significant threat activities not occurring without an RMP.
RMP-38	Industrial/Residential	No	DNAPLs/Fuel/Road Salt/Snow Storage/Waste Disposal/Transfer	Ensure significant threat activities not occurring without an RMP.
RMP-39	Commercial	No	DNAPLs	Ensure significant threat activities not occurring without an RMP.
RMP-40	Commercial	No	Storage of Snow/Application of Road Salt	Ensure significant threat activities not occurring without an RMP.
RMP-47	Institutional	Yes	Application of Road Salt, Handling, Storage of Road Salt, Storage of Snow	RMP being adhered to.
RMP-48	Agricultural/Rural	No	ASM/NASM/Livestock/Fertilizer	Ensure significant threat activities not occurring without an RMP.
RMP-49	Agricultural/Rural	No	Livestock Grazing/Pasturing, Application of ASM, Handling and storage of ASM	Ensure significant threat activities not occurring without an RMP.
RMP-50	Commercial	Unknown	Application of Road Salt, Storage of Snow, Handling and Storage of Road Salt	Future threat, identified through s.59 process for a proposed development. Currently, no activity on-site.
RMP-51	Industrial	Yes	Storage and Handling of Fuel	RMP is in progress

4.7.3 Of the inspections carried out for activities requiring a RMP, how many were found to be in non-compliance with the specific contents of the RMP?

No non-compliances identified.

4.7.4 What is the total number of inspections carried out for activities that were prohibited under s.57?

Regular inspections continue in the Kenneth and Gravel WHPAs to confirm no new livestock are present, and no changes were noted.

Of the number of inspections undertaken in respect to an activity to which s.57 of the Act applied, in how many cases was the person engaged in contravention with s. 57 of the Act?

No non-compliances identified.

4.8 Number of Risk Assessments submitted (Section 60) : 0

File No.	Location	WHPA/ IPZ/ICA	Activity	Accepted/Not Accepted

4.9 Number of times the Risk Management Official caused a thing to be done (Section 64) : 0

File No.	Location	WHPA/ IPZ/ICA	Activity	Notes/Comments

4.10 Total number offences which resulted in prosecutions (Section 106) : 0

File No.	Activity Offence	WHPA/ IPZ/ICA	Location	Conviction Y/N

5. New, Altered or Decommissioned Drinking Water Systems

- a) Are there any new, planned or potential drinking water systems (wells or intakes) within the next 5 years? Yes ☐ No ☒

If **yes**, describe:

- i) Type of system (surface or groundwater): N/A
- ii) Current planning status: N/A
- iii) Location: N/A
- iv) Timing for bringing the system/intake/well online: N/A

If **yes**, has the necessary technical work for the new well/intake/system been completed? (i.e. delineation of wellhead protection areas/intake protection zones and identification of significant drinking water threats): N/A

- b) Is the municipality planning to decommission an existing well, intake, or system?
Yes ☐ No ☒

If **yes**, describe:

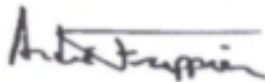

- i) Name of system: N/A
- ii) Location: N/A
- iii) Timing for decommissioning: N/A
