

Transportation Study Report

December 2016

TABLE OF CONTENTS

Executive Summary	ix
1 Introduction	1
1.1 Purpose of the Study	1
1.2 Conformance to Municipal Class Environmental Assessment Process	1
1.3 Project Direction	1
1.4 Best Practices in Sustainable Transportation Planning	2
1.5 Consultation Process	2
1.6 Organization of the Report	3
2 Public Consultation Summary	5
2.1 Public Consultation Regarding Existing Conditions	5
2.1.1 Meeting with Mining and Trucking Industry Representatives	5
2.1.2 Public Information Centre #1	5
2.1.3 Online Survey	9
2.1.4 PIC#1 Consultation Summary	14
2.2 Public Consultation Regarding the Preferred Transportation Alternative	14
2.3 Public Consultation Regarding the Draft Transportation Study Report	16
2.4 Meetings with Sustainable Mobility Advisory Panel	17
2.5 Committee and Council Presentations	18
3 Greater Sudbury Today: Existing Transportation Conditions	19
3.1 Socio-Economic Profile	19
3.2 Roadway Network and Travel Characteristics	19
3.2.1 Roadway Classification	19
3.2.2 Traffic Volumes and Network Capacity	23
3.2.3 Major Travel Flows – Truck Haulage	30
3.2.4 Major Travel Flows – Transit	31
3.2.5 Screenlines	33
3.2.6 Existing Intersection Level of Service	36
3.3 Existing Active Transportation Network	66
3.3.1 Existing Cycling and Pedestrian Networks	66
3.3.2 Pedestrian and Cycling Network User Groups	67
3.3.3 Identification of Missing Links in the Active Transportation Network	69
4 Transportation Planning Context	71
4.1 Provincial Policy Statement	71
4.2 Growth Plan for Northern Ontario	71
4.3 City of Greater Sudbury Official Plan	71

4.4	Growth Outlook to 2036	72
4.5	Growth and Settlement Report.....	72
4.6	Sustainable Mobility Plan	73
4.7	Bicycling Technical Master Plan.....	73
4.8	Economic Development Strategic Plan for Greater Sudbury 2020	73
4.9	Downtown Sudbury: A Plan for the Future	73
4.10	Pedestrian Crossing Policy Report.....	74
4.11	Trails for Active Transportation: City of Greater Sudbury	74
5	Transportation Vision Statement, Principles, Objectives, and Process	75
5.1	Transportation Vision	75
5.2	Transportation Principles	75
5.3	Transportation Objectives	76
5.4	Problem Statement	76
5.5	City of Greater Sudbury Transportation Study Report Process	76
6	Active Transportation: Cycling and Walking	78
6.1	General Objectives and Goal of Active Transportation	78
6.1.1	Health and Fitness	78
6.1.2	Transportation.....	79
6.1.3	Environment	80
6.1.4	Economic.....	80
6.1.5	Tourism.....	81
6.2	Network Planning Guiding Principles for Active Transportation	81
6.3	Existing Active Transportation Policies and Initiatives	83
6.4	Supporting AT in Greater Sudbury – Programming, Outreach & Support Features	92
6.4.1	Education.....	92
6.4.2	Encouragement	94
6.4.3	Enforcement	96
6.4.4	Partnerships	97
6.4.5	Support Features	97
6.5	Recommendations for Supporting Active Transportation.....	99
7	Future Transportation Needs	101
7.1	Steps to Determine the Preferred Transportation Alternative	101
7.2	Population and Employment Projections for the Year 2031.....	101
7.3	Travel Demand Forecasting Model	105
8	Transportation Planning Alternatives.....	106
8.1	Do Nothing Alternative	106

8.2	Auto Focused Alternative	114
8.3	Sustainability Focused Alternative	125
8.4	Process for Alternatives Analysis	139
8.5	Evaluation Framework	139
8.5.1	Project Principles Evaluation.....	139
8.5.2	System Metrics Evaluation.....	143
8.5.3	Discussion of Residual Congested Road Links	146
8.5.4	Intersection Capacity Analysis for the Preferred Transportation Alternative	146
8.6	Recommended 2031 Road Network of the Preferred Transportation Alternative	148
8.7	Discussion Regarding Proposals for Individual Road Links.....	154
8.7.1	Maley Drive.....	154
8.7.2	South Bay Road Extension (Southern University Link).....	155
8.7.3	Municipal Road 80	157
8.7.4	Montrose Avenue North	158
8.7.5	Martilla Drive.....	160
8.7.6	Remington Road.....	160
8.7.7	John Street, Val Caron.....	161
8.7.8	Ste. Anne Road	161
8.7.9	Montrose Avenue South	162
8.7.10	Frood Road / Beatty Street	163
8.7.11	Big Nickel Drive	164
8.7.12	Falconbridge Community Truck By-Pass	164
8.7.13	Intersection of Capreol Road and Cote Boulevard	166
9	Cycling and Pedestrian Master Plan	167
9.1	Network Development Process and the Recommended Network	167
9.2	Cycling and Pedestrian Network Facility Types (Overview).....	169
9.2.1	On-Road Cycling Facilities – Dedicated Space	169
9.2.2	On-Road Cycling Facilities – Separated Space.....	169
9.2.3	On-Road Cycling Facilities – Shared Space	170
9.2.4	Off-Road Cycling Facilities – Separated Space.....	171
9.3	The Recommended Cycling and Pedestrian Network	172
9.4	Recommended Phasing / Implementation Strategy.....	172
9.4.1	Establishing Priorities.....	183
9.4.2	Implementation Recommendations.....	184
10	Policies to Support the Preferred Transportation Alternative.....	185
10.1	Complete Streets	185

10.1.1	Purpose and Goals	185
10.1.2	Policy Directions	185
10.2	Road Classifications	186
10.2.1	Revised Classification – Focus on Complete Streets	186
10.2.2	Road Cross Sections	189
10.2.3	Reassignment of Roads to Classifications	189
10.3	Appropriate Implementation of Urban Cross Sections	196
10.3.1	Criteria for Rural to Urban Conversion	196
10.4	Sidewalk Priority	196
10.4.1	Criteria for High Priority Road Segments for Sidewalk Implementation	196
10.5	Policy Recommendations for Rural to Urban Conversion and Sidewalks	197
10.6	Transit.....	197
10.7	Greater Sudbury Airport.....	198
10.8	Rail	198
10.9	Roundabouts	198
10.10	Transportation Demand Management	199
10.11	Pedestrian Safety	201
11	Transportation Study Report Implementation	204
11.1	Recommended Transportation Strategy.....	204
11.2	Implementation Plan	204
11.3	Phasing of the Recommended Road Improvements	204
11.4	Use of the Transportation Study Report	212
11.5	Transportation Study Report Review and Updates	212
11.6	Funding Opportunities.....	212
11.6.1	Province of Ontario Programs.....	212
11.6.2	Federal Programs	213
11.6.3	Development Charges	213
11.6.4	Other Alternative Infrastructure Funding Mechanisms.....	214
11.7	Implementation through the Official Plan.....	214
12	Recommendations	215
12.1	Road Improvements.....	215
12.2	Supporting Active Transportation	216
12.3	Active Transportation Implementation	217
12.4	Transportation Policies	218
12.4.1	Complete Streets Policy.....	218
12.4.2	Road Classifications	218

- 12.4.3 Rural to Urban Conversion.....218
- 12.4.4 Sidewalk Policy.....218
- 12.4.5 Transit.....218
- 12.4.6 Greater Sudbury Airport.....218
- 12.4.7 Rail218
- 12.4.8 Roundabouts218
- 12.4.9 Transportation Demand Management.....219
- 12.4.10 Pedestrian Safety219
- 12.5 Incorporating the Transportation Study Report into the Official Plan219

List of Figures

- Figure 1: Proportion of Trips Made within Greater Sudbury.....10
- Figure 2: Modes of Transportation Used in Greater Sudbury10
- Figure 3: Survey Results: Barriers to Alternative Modes of Transportation.....12
- Figure 4: Roadway Classification20
- Figure 5: Key Traffic Flows – P.M. Peak Period24
- Figure 6: Volume to Capacity Plots – Existing (Overview)26
- Figure 7: Volume to Capacity Plots – Existing (Intermediate Zoom).....27
- Figure 8: Volume to Capacity Plots – Existing (Downtown)28
- Figure 9: Greater Sudbury Annual Transit Ridership, 2003 – 201331
- Figure 10: Most Traveled Transit Routes33
- Figure 11: Screenline Locations.....34
- Figure 12: Main Street at M.R. 80 Intersection Peak Hour Volumes and Lane Configuration37
- Figure 13: Lasalle Blvd at Barry Downe Road – Peak Hour Volumes / Lane Configuration39
- Figure 14: The Kingsway at Barry Downe Road – Peak Hour Volumes / Lane Configuration....41
- Figure 15: The Kingsway at Silver Hills Drive – Peak Hour Volumes / Lane Configuration.....43
- Figure 16: The Kingsway at Bancroft Drive – Peak Hour Traffic Volumes / Lane Configuration 45
- Figure 17: Bancroft Drive at Second Avenue – Peak Hour Volumes / Lane Configuration47
- Figure 18: Lloyd Street at Brady Street – Peak Hour Volumes / Lane Configuration50
- Figure 19: Lloyd Street / Elm Street at Notre Dame Avenue / Paris Street – Peak Hour Volumes / Configuration.....52
- Figure 20: Paris Street at Brady Street – Peak Hour Volumes / Lane Configuration.....54
- Figure 21: Douglas Street at Regent Street – Peak Hour Volumes / Lane Configuration.....56
- Figure 22: Ramsey Lake Road at Paris Street – Peak Hour Volumes / Lane Configuration58
- Figure 23: Regent Street at Paris Street / Long Lake Road – Peak Hour Volumes / Lane Configuration60
- Figure 24: M.R. 24 at M.R. 55 – Peak Hour Volumes / Lane Configuration63
- Figure 25: M.R. 24 at M.R. 55 – Southbound Queues Extending Beyond Railway Crossing64
- Figure 26: M.R. 24 at M.R. 55 – Northbound Queues Spilling Back into the Intersection65
- Figure 27: Existing Active Transportation Conditions70
- Figure 28: Transportation Master Plan Process77
- Figure 29: Basic Dimensions for the Two Bicycles per Stand Perpendicular Configuration98
- Figure 30: Map of 2006 Sudbury Population102
- Figure 31: Map of Forecast 2031 Sudbury Population.....102

Figure 32: Forecast Change in Sudbury Population between 2006 and 2031 103

Figure 33: Map of 2006 Sudbury Employment 104

Figure 34: Map of Forecast 2031 Sudbury Employment..... 104

Figure 35: Forecast Change in Sudbury Employment between 2006 and 2031 105

Figure 36: Key Traffic Flows – ‘Do Nothing’ Alternative 107

Figure 37: Volume to Capacity Plot – 'Do Nothing' (Overview) 111

Figure 38: Volume to Capacity Plot – 'Do Nothing' (Intermediate Zoom) 112

Figure 39: Volume to Capacity Plot – 'Do Nothing' (Downtown) 113

Figure 40: Key Traffic Flows – 'Auto Focused' Alternative 116

Figure 41: Volume to Capacity Plots – 'Auto-focused' (Overview) 122

Figure 42: Volume to Capacity Plots – 'Auto Focused' (Intermediate Zoom) 123

Figure 43: Volume to Capacity Plots – 'Auto Focused' (Downtown) 124

Figure 44: Key Traffic Flows – 'Sustainability Focused' Alternative 131

Figure 45: Volume to Capacity Plots – 'Sustainability Focused' (Overview)..... 136

Figure 46: Volume to Capacity Plots – 'Sustainability Focused' (Intermediate Zoom)..... 137

Figure 47: Volume to Capacity Plots – 'Sustainability Focused' (Downtown) 138

Figure 48: Alternatives Analysis 139

Figure 49: Recommended 2031 Road Network..... 149

Figure 50: Downtown Enlargement 150

Figure 51: New Sudbury Enlargement 151

Figure 52: South End Enlargement 152

Figure 53: Enlargement Areas 153

Figure 54: Maley Drive Proposed Extensions and Widening 154

Figure 55: South Bay Road Extension 155

Figure 56: Municipal Road 80 Widening..... 157

Figure 57: Montrose Avenue North Extension 158

Figure 58: Martilla Drive Extension..... 160

Figure 59: Remington Road Extension..... 160

Figure 60: John Street Extension, Val Caron 161

Figure 61: Ste. Anne Extension..... 161

Figure 62: Montrose Avenue South Extension 162

Figure 63: Frood Road / Beatty St..... 163

Figure 64: Big Nickel Drive Extension 164

Figure 65: Falconbridge Community Truck By-pass..... 165

Figure 66: Conceptual Realignment of Capreol Road 166

Figure 67: Recommended 2031 Cycling and Pedestrian Network..... 173

Figure 68: Cycling and Pedestrian Network Downtown Enlargement 174

Figure 69: Cycling and Pedestrian Network New Sudbury Enlargement 175

Figure 70: Cycling and Pedestrian Network South End Enlargement 176

Figure 71: Cycling and Pedestrian Network Enlargement Areas 177

Figure 72: Cycling and Pedestrian Network Phasing..... 178

Figure 73: Cycling and Pedestrian Network Phasing Downtown Enlargement 179

Figure 74: Cycling and Pedestrian Network Phasing New Sudbury Enlargement..... 180

Figure 75: Cycling and Pedestrian Network South End Enlargement..... 181

Figure 76: Cycling and Pedestrian Network Enlargement Areas 182

Figure 77: Proposed Primary Arterial Road Cross Sections 190

Figure 78: Proposed Urban Secondary or Tertiary Arterial Road Cross Sections..... 192

Figure 79: Proposed Rural Secondary or Tertiary Arterial Road Cross Sections 193

Figure 80: Proposed Collector Road Cross Sections 194

Figure 81: Revised Road Classification Map 195

Figure 82: Phasing Plan for Road Improvements 207

Figure 83: Phasing Plan for Road Improvements Downtown Enlargement.....208
 Figure 84: Phasing Plan for Road Improvements New Sudbury Enlargement.....209
 Figure 85: Phasing Plan for Road Improvements South End Enlargements.....210
 Figure 86: Phasing Plan for Road Improvements Enlargement Areas.....211

 Table 48: Road Links Recommended for Construction in the Short Term (Generally 0 to 5 Years)..... 204
 Table 49: Road Links Recommended for Construction in the Medium Term (Generally 6 to 10 Years)..... 205
 Table 50: Road Links Recommended for Construction in the Long Term (11 to 15 or More Years)..... 205
 Table 51: Development-driven Road Projects 206

List of Appendices

- A – Online Survey
- B – Notice of Study Commencement / Public Information Centre #1
- C – Public Information Centre #1 Presentation Boards
- D – Notice for Public Information Centre #2
- E – Public Information Centre #2 Presentation Boards
- F – Consultation Register
- G – Notice for Public Information Centre #3
- H – Draft Transportation Study Report Comment Register
- I – Public Information Centre #3 Presentation Boards
- J – Request for Decision Transportation Master Plan – Consultation Update Staff Report October 20, 2015
- K – Truck Haulage Routes Map
- L – Traffic Signal Warrant Analysis
- M – Transportation Updates to the Official Plan
