## Recommendation:

That By-Law 2001-172 be passed authorizing the Mayor and Clerk to execute an agreement between the City of Greater Sudbury and Mining Heritage Committee of Sudbury Inc., for erection and construction in Bell Park of a sculpture honouring our community's mining heritage.

## **Executive Summary:**

The Mining Heritage Committee of Sudbury Inc. (the Mining Committee) has received permission from City Council to construct and erect in Bell Park a mining heritage sculpture honouring our community's mining heritage.

The site is located on the south-east side of Bell Park that was mutually agreed upon by the Mining Heritage and Bell Park Stewardship Committees.

The Mining Committee has arranged for volunteers to carry out the erection and construction of the sculpture. Therefore, it is appropriate that the City enter into a Construction Agreement with the Mining Committee to permit then to erect and construct the monument in Bell Park. The Agreement will include such items as necessary liability insurance, ensurance that City engineering design and construction standards are followed, inspection and testing requirements and on-going maintenance responsibilities.

Therefore, it is recommended that Council approve By-Law 2001-172 included in the agenda, authorizing the Mayor and Clerk to execute a Construction Agreement.

## **Background:**

As Council will recall, the Mining Heritage Committee of Sudbury Inc. has been given approval to erect and construct a mining sculpture in Bell Park, honouring our mining heritage.

The sculpture/site will be located near the existing Grace Hartman Amphitheatre and will overlook Lake Ramsey. The location of the sculpture has been agreed with both the Bell Park Stewardship and Mining Heritage Committee, and confirmed by Council Resolution 2001-105 contained in the report from Caroline Hallsworth, General Manager of Citizen and Leisure Services, at the Council Meeting on February 7, 2001.

The sculpture/site will also incorporate a network of illuminated footpaths, walkways and flowerbeds which will be built to City standards consistent with what is presently in Bell Park.

The Mining Committee have raised the necessary funds for both the design and construction of the sculpture and site. They have also secured volunteers to carry out the professional design of the foundation, walkway and lighting system. Also individuals and local contractors have donated all materials and have volunteered to erect the sculpture and construct the site.

To permit the Mining Committee to erect the sculpture and construct the site, it is appropriate that a Construction Agreement between the City and the Mining Committee be entered into. The Construction Agreement will be similar to a routine road construction contract that a roads contractor would enter into with the City. The Construction Agreement will include such things as the provision of necessary liability insurance, design and construction standards and workmanship requirements, etc.

Therefore, it is appropriate that Council approve By-Law 2001-172 contained in this Council Agenda, authorizing the Mayor and Clerk to execute an agreement between the City of Greater Sudbury and Mining Heritage Committee of Sudbury Inc. for the erection of the sculpture and construction in Bell Park of a mining sculpture/site, honouring our community's mining heritage.
