CP 5000 SUCCA
200 RUE BRADY
SUDBURY ON P3A 5P3

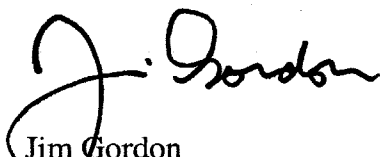

Dear Councillors,

Bill Huffman, Curator/Director, and David Boyce, Board Chair of the Art Gallery of Sudbury, will attend our next Council Meeting to present an update on the gallery's activities. At this time, we will also be provided with details on an exciting, international project that the Art Gallery of Sudbury will be involved with.

Sudbury is very fortunate to have Bill Huffman who is an extremely gifted and innovative Director. With the guidance of a committed and dedicated Board of Directors, our local gallery has gained wide community appeal and recognition.

Please join me in welcoming Bill Huffman and David Boyce and hearing more about the Art Gallery of Sudbury.

Yours sincerely,

A handwritten signature in black ink that reads 'Jim Gordon'.

Jim Gordon
Mayor

City Agenda Report

Report To: CITY COUNCIL

Report Date: 2001-05-16

Meeting Date: 2001-05-22

Subject: 2001 MWIN/SWANA Training Week & Conference
2001 A Waste Odyssey - June 11-15, 2001, Alliston, Ontario

Department Review:

Doug Wuksinic,
General Manager of Corporate Services

Recommended for Agenda:

Jim Ryle,
Chief Administrative Officer

Report Authored by:

T. Mowry, City Clerk

Recommendation:

That the following Members of Council be authorized to attend the 2001 MWIN/SWANA Training Week & Conference and MWIN Annual General Meeting (2001 - A Waste Odyssey) to be held in Alliston, Ontario from June 11th to 15th, 2001:

Councillor Petryna
Councillor Lalonde

26

Background:

The 2001 MWIN/SWANA Training Week & Conference and MWIN Annual General Meeting (2001 - A Waste Dynasty) will be held in Alliston, Ontario from June 11th to 15th, 2001. A copy of the registration, program and accommodations in Alliston is attached for your information.

The resolution contained in this report appears on the Agenda for formal ratification by Council.

SWANA®

ONTARIO CHAPTER

March 2001

Dear Industry Colleague:

The SWANA Ontario Chapter is again pleased to give you an opportunity to become certified or to recertify as a *Manager of Landfill Operations (MOLO)*. Candidates who successfully complete the MOLO course and challenge exam are recognized throughout North America as well-trained landfill professionals.

The training delivered in this course encompasses all aspects of landfill management, including planning, construction, operation, monitoring, site closure and post closure care.

You are encouraged to enroll now to become a MOLO certified professional.

Yours truly,

A handwritten signature in dark ink, appearing to read 'P. Russell', with a stylized, flowing script.

Pam Russell, P.Eng.
President
SWANA Ontario Chapter

2001 MWIN/SWANA Training Week & Conference and MWIN Annual General Meeting

2001: A WASTE ODYSSEY

June 11 – 15, 2001 • Nottawasaga Inn & Resort, Alliston, Ontario

Dear Industry Colleague:

As we begin the new millennium, the Boards of Directors of MWIN and SWANA Ontario Chapter plan to introduce new opportunities and initiatives to increase member benefits. One such initiative is to provide high profile opportunities for non-government members to showcase their organizations during our upcoming MWIN/SWANA Training Week & Conference and MWIN Annual General Meeting being held June 11-15, 2001.

We have identified a number of areas where non-government members can promote their organizations at this event and they are identified in the accompanying registration and information form. They are excellent opportunities to promote your company, its products or services, enhance your corporate image and introduce your organization to potential new clients and customers.

There are numerous opportunities at various levels from which to choose. The opportunities will be awarded on a first-come, first-served basis. If you want to be sure you can sponsor your preferred choice, complete the Sponsorship Opportunities Registration Form and return it right away. Should you choose to do so, you may co-sponsor a function with another company and submit a joint registration with payment.

There are also twenty (20) tabletop exhibit opportunities on Wednesday and Thursday to showcase your product or services. Again, the opportunities will be awarded on a first-come, first-served basis and you are encouraged to respond quickly to ensure you secure your ideal table location. The exhibit room layout showing numbered tables and the exhibitor registration form are enclosed.

Once you have made your sponsorship and exhibit commitment and returned your completed registration form(s), Maryanne Hill will be in touch with you to make appropriate arrangements for receiving your corporate logo for use on signage and in program materials.

See you at the 2001 MWIN/SWANA Training Week & Conference and MWIN Annual General Meeting at the Nottawasaga Inn & Resort between June 11 and 15, 2001.

Sincerely,

Angelos Bacopoulos
President, MWIN

Pam Russell
President SWANA Ontario Chapter

Solid Waste Association of North America

Manager of Landfill Operations (MOLO) Course

June 11-14

The course (followed by an optional challenge exam) will be held over a period of three and a half days and will earn you 30 credits towards certification. The aim of the course is to provide those involved in the daily management of municipal solid waste landfills with the basic information upon which a successful operation runs.

Upon completion of this course, each participant will have been instructed in all of the areas that will be tested through SWANA's certification examination. The understanding of the issues that have to be considered when planning, operating and closing a landfill will also be covered. Participants will interact with peers and learn about new ways to approach landfill management and operations.

Those participants wishing to write the MOLO Certification Exam should contact the SWANA Ontario Chapter offices at (705) 835-6224 for details and cost.

*Instructor: Doug Robinson, Principal
Robinson Environmental Services*

Doug Robinson is a solid waste management industry advisor and instructor who specializes in landfill management consulting and best practice techniques and methods for landfill operations. He has worked in various public and private capacities with government regulatory bodies, municipalities, regional governments, private sector companies and engineering firms.

*Instructor: Ron McCaw, Supervisor
Solid Waste Facilities, Regional District of Nanimo, BC*

Ron McCaw is a Civil Engineering Technician, a Senior Survey Technologist and holds Masters degrees in Community Planning and Environmental Science. In addition, he holds class # 1 licenses in both water treatment and distribution systems and waste water treatment and collection systems.

Course Outline:

Lesson 1: Introduction and Pre-Test

The first lesson provides an overview of the entire three-day program. A short test is given to aid the participants and instructors in better understanding the extent of knowledge of the participants.

Lesson 2: Role of Sanitary Landfills in Integrated Municipal Solid Waste Management

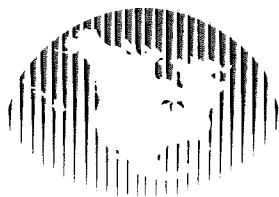

Review of the relationship of landfills to integrated solid waste management systems.

Lesson 3: Basics of Landfill Site Restrictions

Addresses the factors which are considered when selecting a site for a landfill and how the selection affects the design and operation of a landfill.

Lesson 4: Communications

Covers topics essential to good communications with internal and external stakeholders.

MOLO Course Outline (continued):

Lesson 5: Complying with Design Requirements

Reviews the principles of landfill design and presents instruction in plan review, plan reading, plan interpretation and field interpretation of design.

Lesson 6: Waste Acceptance and Screening

Addresses the importance of maintaining control of waste delivered to a landfill including asbestos, hazardous waste, biomedical waste, recyclables and toxics, etc.

Lesson 7: Leachate, Landfill Gas and Settlement

Addresses the decomposition process that occurs within a landfill and how various wastes affect the decomposition process. It also provides information on the generation of the decomposition products.

Lesson 8: Control Processes for LFG and Leachate

Examines in detail control and treatment technologies for landfill gas and groundwater monitoring, storm water management and reviews remedial actions procedures.

Lesson 9: Operation Techniques

Provides instruction on the most acceptable and advanced techniques of landfill operation. The instructor discusses waste control, equipment utilization, operations staffing, site capacity optimum utilization, cell construction and procedures to determine compliance with design and permit conditions.

Lesson 10: Compliance and Inspection

Provides instruction for landfill managers and enforcement officers on the inspection techniques for landfills. A landfill evaluation/inspection technique is used as part of the field exercise to emphasize correct techniques.

Lesson 11: Field Exercise

The field exercise will take place at Keele Valley Landfill Site. Participants are given opportunities for hands-on experience at stations for operations, groundwater sampling, soils and landfill gas sampling, as well as to evaluate the landfill against the design and permit conditions of the facility.

Lesson 12: Closure and Long Term Care

Addresses closure and post-closure requirements for a landfill. Discussions include final cover, final cover maintenance, groundwater and landfill gas monitoring and settlement control.

Lesson 13: Landfill Economics

Examines the economics of landfill design and operation and the relationship among equipment, staffing, operations, and compliance monitoring costs.

Lesson 14: Provincial Regulations

Reviews the provincial landfill regulations.

Lesson 15: Landfill Safety and Contingency Countermeasures

Reviews the basics of landfill safety, including controlling and preventing site access.

Lesson 16: Training On-Site Personnel

Provides an overview of on-site training needs for gate attendants, spotters and equipment operators.
