PRE-CONSULTATION APPLICATION GUIDE

The *Planning Act* authorizes municipalities to require that development proponents consult with them prior to submitting official plan amendments, rezoning, plans of subdivision, plans of condominium and site plans. The City of Greater Sudbury in By-law 2008-165 provides that where the Director of Planning and/or his/her designate has determined the need for pre-consultation, the applicant shall pre-consult prior to making an application. Pre-consultation has been determined as being mandatory on all such applications, with the following exceptions:

1. Rezoning applications to lift an “H”, Holding Provision;
2. Rezoning applications to permit a garden suite or other uses as a temporary use;
3. Rezoning applications to permit an extension to a temporary use permission;
4. Rezoning applications which are required to satisfy a condition imposed by a consent approval.

The purpose of pre-consultation is to confirm the appropriate planning approvals required for the development of a site. Pre-consultation will also identify required drawings, supporting studies and reports that are necessary for the application(s) to be deemed complete. The applicant is also provided the opportunity to find out what planning policies apply to the property, processing timelines, as well as discovering potential areas of concern. The comments generated from the pre-consultation meeting do not constitute an approval and do not reflect the position of Planning Services. The applicant is advised that any discussion on the merit or the design of the development application may require a separate meeting(s).

After the applicant has submitted the completed application form and supporting information to Planning Services, the applicant will be contacted by Planning Services and will be advised of the time and date for the pre-consultation meeting. As part of the pre-consultation process, a review team comprised of staff from Planning, Building Services, Traffic and Transportation, Drainage and Development Engineering, called “SPART”, (Sudbury Planning Application Review Team) meet on a regular basis to review the pre-consultation applications. Staff from Economic Development and other City departments may also be asked for input on applications and related economic development opportunities or other matters as appropriate.

Applications for Plans of Subdivision and Site Plans

Applicants for plans of subdivision and site plans are encouraged to attend the SPART (Sudbury Planning Application Review Team) meetings as their pre-consultation meeting. If applicants are unable to attend the SPART meeting to which their pre-consultation application has been scheduled, a pre-consultation meeting will be scheduled with the applicant to occur following the SPART meeting, and will be held with the Senior Planner assigned to subdivision file or with the Subdivision/Site Plan Control Engineer in the case of a site plan file.

Applications for Official Plan, Zoning By-law Amendment and Plans of Condominium

After the applicant has submitted a complete pre-consultation application form and supporting information, the applicant will be contacted by Planning Services to schedule a pre-consultation meeting with the Senior Planner assigned to the official plan amendment, rezoning or condominium application. This meeting will typically occur within a few days following the SPART meeting at which the pre-consultation application was reviewed.

At the conclusion of all pre-consultation meetings, Planning Services will complete the Pre-Consultation Understanding Form which will be signed by Planning Services staff and the applicant. This form will set out the supporting documentation required to be submitted prior to an application being deemed complete.

NOTE: All comments and direction offered by City staff and outside agencies is preliminary and based solely on the information available at the time of the meeting. Once an application has been submitted, deemed complete and circulated for comments additional information may be required during the processing of the application.

NOTE: The pre-consultation fee will be credited to related planning application submitted within 1 year (or 18 months in the case of an environmental impact study) from the date of the pre-consultation meeting.
