

Creating hope through environmental restoration

THE JUNCTION CREEK STEWARDSHIP COMMITTEE

The **Junction Creek Stewardship Committee** is a grassroots not-for-profit that has led the way to restore Greater Sudbury's urban waterway since 1999. The committee works with community partners, stakeholders, and countless volunteers to undo damage caused by historic logging and mining practices, and identify arising issues within the Junction Creek watershed.

OUR MISSION

"To lead the way for improving and maintaining a healthy Junction Creek watershed by:

- conducting **research and monitoring** programs to create understanding and inform sound decisions
- organizing **restoration activities** to recover and protect the watershed
- providing **educational opportunities** to share knowledge and promote its ecological, economic, and health benefits
- **connecting the community** with Junction Creek to empower long-term stewardship"

WAYS TO SUPPORT JUNCTION CREEK

- Like and follow us on social media
- Attend Junction Creek events
- Volunteer 2 hours at a tree planting or creek clean-up activity
- Use creek-friendly practices
- Support fundraising campaigns
