

Water Cycle in a Bag

What you Need

- Sandwich bag with a seal
- Marker
- Water
- Food Colouring *optional
- Tape
- A sunny window

Steps

1. Decorate the bag
 - Decorate the bag with the water cycle steps like pictured below. Feel free to add some clouds, the sun and some waves.

2. Prepare the Water
 - Fill a cup with tap water. ** You may add a couple drops of food colouring**
 - **Carefully** pour the water into the bag and make sure its sealed **tightly**
3. Hang up the Bag
 - Hang your bag on a sunny window by taping the top and the top two corners. Make sure to press the tape down firmly so that it doesn't fall
4. Wait and see
 - Every hour or so check on your bag. You will be able to see the water cycle in action as your water changes forms! This may take between 2 hours and 1 day depending on how sunny it is.
