

WANTED

high domed
shell

dark shell
normally with
yellow specks
(but not
always)

bright
yellow
throat

up to 25 cm
(10 in) long

your Blandings turtle sightings

Help the Blanding's turtle population by reporting your sightings of this Threatened species.

If you see a Blanding's turtle within the Junction Creek watershed (which includes Garson, Sudbury, Lively, Copper Cliff) contact the Junction Creek Stewardship Committee immediately:

705-525-8736

705-626-2585

If you do not reach us, please leave a message including:

- (1) the time and location of your sighting
- (2) the size of the turtle
- (3) your contact information

Please do not touch or disturb the turtles!

THANK YOU for your support of turtle conservation!
