

# Furniture and Appliances

Weekly collection of furniture and appliances is available to low density (six units or less) residential properties on a curbside waste collection route.

## Collection Requirements

Furniture and appliances are:

- to be placed at the curbside no earlier than 8:00 p.m. the evening prior to your collection day and no later than 7:00 a.m. on your collection day. Items will be collected within five working days (before your next scheduled collection day).
- to be placed in a visible location on the ground as close as possible to the roadway. For example, do not place items out behind shrubs, fences or snow banks.
- **NOT** to be placed on the sidewalk or travelled roadway. This area must be kept clear for road or sidewalk maintenance crews. This is especially important in the winter months.
- to be placed on levelled ground and not on top of snow banks. In the winter, shovel an area that is flat and place your items at this location. We don't want items falling, slipping or tipping over. This is very important for CFC-containing appliances. We don't want damage to the pipes that contain the CFC's. CFC's are considered ozone depleting substances.

If you can't meet the above-noted requirements, then the items can't be placed out for collection and should then be delivered directly to the landfill site.
