Sprinkler System Upgrade and Temporary Shutdown

In our continued efforts to update our infrastructure, the sprinkler system will be replaced with new main water feed piping beginning Wednesday, December 10, 2025. This pipe is lined with concrete and will increase the fire protection rating more than the regular steel pipe the Home currently uses.

In order to change the piping, the Home will need to shut down the sprinkler system for approximately 7 to 10 days. During this period, smoke and heat detectors will remain active, and staff will conduct fire watch to ensure all safety precautions are maintained.

As always, please do not hesitate to contact us, should you have any questions.

Sincerely,

Nicole Leclair
Director, Long-Term Care Services
