The maximum width of a driveway must not exceed

**The diameter of the new culvert(s) to match the larger of, the up-stream or down-stream culvert diameter but is not to be less than 450mm (18") in diameter. Site inspection may be required.**

**Follow the attached specifications on sight lines and the pertinent portions of the City Standard GSSD-303.020**

**Road Occupancy Permit required if privately installing driveway entrance culvert. Permit fee \$42.00(2020)**

Does this application need to be reviewed by Planning Services?  Yes  No

All existing driveways to this property must be physically closed to vehicular traffic including removal of any culverts and its backfill, depressed curb, gutter, sidewalk etc. as well as any replacements as deemed necessary by City staff. These must be carried out at the serviced property owner's expense as soon as this new driveway is operational.

If the use of this driveway ever changes from this proposed intent, the City reserves the right to have the property owner physically close it at it/his / her expense.

The driveway must be constructed onto the private property which is gaining road access and must extend to the required legal parking space(s).

Maximum grade on driveway is not to exceed 10%

The driveway must tie into the existing public roadway at an angle of not less than 70 deg. and is to maintain this alignment for a minimum distance of 6.1 m (20.0')

*Note: These stipulations pertain only to the portion of the driveway which is located within the City of Greater Sudbury's right-of-way*

Comments:

*Note: These stipulations pertain only to the portion of the driveway which is located within the City of Greater Sudbury's right-of-way*
