

# Construction Notice

## ENG21-50 Bridge/Culvert Replacements Beatty Street #2519 and Dufferin Street #2016 Culverts

The City of Greater Sudbury will be replacing old culverts over **Nolin Creek at Beatty Street, just north of McNeill Boulevard, and Dufferin Street, Sudbury.**

Construction by the City's contractor, **MCA Contracting Ltd.**, will be carried out between **June 2021 and October 2021.**

Work will take place **Monday to Friday, 7:00 a.m. to 7:00 p.m.**

Final asphalt will be completed on **October 29, 2021.**

Please note these timelines are subject to change.

### Construction Details:

- Replacing existing culverts at Beatty Street and Dufferin Street with open-footing precast concrete culvert;
- One traffic lane will be maintained open during construction at each culvert;
- Partial watermain replacement will improve hydraulic performance at Beatty Street culvert ;
- Installing new railing systems;
- Installing new drainage system for run-offs at both culverts;
- Repaving culvert approaches.

During construction, there may be dust and noise in the area. The City makes every effort to reduce the impact to nearby residents and business owners. Thank you for your patience as we work to improve the roads and infrastructure in your neighbourhood. The City of Greater Sudbury and its contractors are committed to public safety and will monitor the ongoing progress of construction.

### Questions about construction can be directed to:

#### Field Inspector:

Ahmad Nahas, E.I.T.  
416-571-6030  
nahasa@ae.ca

#### Project Manager:

Chris Cornell, P.Eng.  
705-674-4455, extension 4239  
chris.cornell@greatersudbury.ca

**Before Construction Begins:**

- Property owners should remove items located within the municipal right-of-way, such as landscaping, fencing, sprinkler systems and decorative objects.
  - Property owners should redirect to above ground, any roof drains and /or sump pump outlets that currently discharge into the front ditch.
- The City is not responsible for damage to any privately-owned items on the municipal right-of-way**

**Possible Water Service Disruptions:**

On occasion, during construction, the water supply to your property may need to be shut off. The contractor will provide at least 24-hours notice. If you do not receive advance notice of a water disruption, this may mean an emergency shut-off was necessary. It is recommended that you disconnect any water treatment systems, such as water softeners or filters, during scheduled water service disruptions.

**Traffic:**

Plans are in place to manage traffic in the area to ensure the safety of workers and residents. You may experience some delays and increased traffic on nearby main and side streets. At times, Beatty Street between Hickory Street and McNeill Boulevard and Dufferin Street at Beatty Street may be reduced to one lane of traffic to accommodate construction.

**Driveway Access:**

If temporary driveway closures are required, the contractor will provide notice to the affected properties and make arrangements for alternative access and parking when necessary. **Entrances to businesses and public institutions shall remain accessible at all times.**

**Road and Sidewalk Access:**

Safe access for pedestrians will be maintained. Parents are reminded to teach children about road safety in active construction zone areas. Residents who have accessibility needs, such as wheelchair access, are asked to contact the City Field Inspector or Project Manager listed on this notice.

**Emergency Services and Public Transit:**

Access for police, fire and paramedic services vehicles will be maintained at all times. Public transit detours may occur during construction. Please call GOVA at 705-675-3333 or visit [www.greatersudbury.ca/gova/](http://www.greatersudbury.ca/gova/) for information. Should the work affect the school bus route, the Sudbury Student Services Consortium will inform you of any changes to the scheduled route.

**Garbage Collection:**

Garbage, recycling, and leaf and yard trimmings pickup will not be affected by construction. Please place your waste at the front of your property before 7 a.m. on your regular collection day. If waste collection vehicles are unable to access properties in the construction area, the contractor will transport the waste outside of the zone for pickup. Your garbage, recycling and organics containers will be returned to your property later in the day. **Please ensure your containers are labeled with your address so that they can be returned to you.**
