ENG21-50 Bridge/Culvert Replacements

Beatty Street #2519 and Dufferin Street #2016

Culverts

The City of Greater Sudbury will be replacing old culverts over Nolin Creek at **Beatty Street**, just north of McNeill Blvd, and **Dufferin Street**.

Construction Details:

- Replacing existing culverts at Beatty Street and Dufferin Street with open-footing precast concrete culverts.
- One traffic lane will be maintained open during construction at each culvert.
- Partial watermain replacement will improve hydraulic performance at Beatty Street culvert.
- Installing new railing systems.
- Installing new drainage system for run-offs at both culverts.
- Repaving culvert approaches.

Expected Start Date: Summer 2021

Expected End Date: Fall 2021

Timeline is subject to change

On March 24, 2020, the Province of Ontario classified the construction industry as essential. Work on the approved 2021 capital budget is ongoing and the City is committed to the planned infrastructure improvements.

Under normal circumstances, the City would hold public information sessions to explain these projects and their impact on communities. Instead, we are publishing information online and asking residents to review these documents from their homes.

Residents can visit our website to obtain information and review the construction plans.
