**Re: Contract ENG23-3  
Road Reconstruction  
David Street - Paris Street to western Cul-de-Sac and  
Marion Street – McNaughton Street to northern Cul-de-sac**

Dear Resident,

This letter is to provide you with updated information regarding the project schedule and anticipated phasing of the above noted project.

The City appreciates the feedback and comments regarding the proposed work received at the consultation meeting held in May 2023. We are working towards a final project design.

At this time, it is no longer feasible to start the work on this project in 2023. Further investigation has determined there is a requirement for upsizing the downstream storm system to Bell Park. We will continue to work diligently on this project and expect to tender this Contract later this calendar year with construction starting in 2024, continuing into 2025.

Should you have any further questions, please contact the undersigned.

Thank you in advance for your patience.

Regards,

Krista Trafford  
Project Manager
