

?? Frequently Asked Questions ??

Q: What is a bikeway?

A: A bikeway is a dedicated path or route for cyclists. It is commonly separated from the vehicular traffic lane through a physical buffer or grade separation

Q: Why is the City of Greater Sudbury building a bikeway on Paris Street and Notre Dame Avenue?

A: The [Transportation Master Plan](#) for the City of Greater Sudbury recommends a network of cycling facilities to be installed throughout the community. To view the recommended cycling facility network, visit [Section 9](#) of the Transportation Master Plan. A cycle track is the recommended facility type for Paris Street and Notre Dame Avenue to accommodate people who bike.

Q: When will the Paris – Notre Dame bikeway be constructed?

A: The first section from York Street to Walford Road was constructed in 2017. The second section from LaSalle Blvd to Wilma Street was constructed in 2020. The next segment from Wilma Street to John Street will be constructed in 2023. Additional segments of the bikeway will be constructed in subsequent years, as funding is approved by City Council through the budget process.
