

BLUE BOX RECYCLING

2022

PARTICIPATION RATE

 = 10%

91%

91% of households are currently participating in the Blue Box program

Participation Rate: The percentage of households on a roadside collection route who set out recyclables at least once in a consecutive four week period

SET-OUT RATE

74% of households set out a Blue Box Recycling Container on collection day

Set Out Rate: The percentage of households on a roadside collection route setting out recyclables on the day of collection. As a percent, the set out rate is the number of households setting out recycling on a collection day divided by the total number of households available to set out material.
